

Governor Newsom shares California's economic vision and budget

[Article originally appeared in www.gov.ca.gov]

What you need to know:

Governor Newsom continued his statewide California Jobs First tour today to outline a first-of-its-kind, bottom-up economic vision for California's future, receiving the regional plan from local leaders in the North San Joaquin Valley. The Governor also previewed topline of this year's state budget — a balanced spending plan that makes government more efficient, increases accountability, and improves the safety, health, and well-being of Californians.

Governor Gavin Newsom, as part of his ongoing statewide California Jobs First tour, today received the North San Joaquin Valley's regional economic plan from community leaders representing San Joaquin, Stanislaus, and Merced counties. The plan is one of 13 regional plans that will make up the upcoming California Jobs First Economic Blueprint.

Governor Newsom also previewed his 2025-26 state budget proposal by outlining the state's continued plans to support robust economic growth, high-paying jobs and career development, and strong accountability measures to address housing, homelessness, and mental health.

California is not only dominating but paving the way for the future of jobs and the American economy, with local homegrown economic

plans for every region of our state. With a balanced budget and key investments maintained for the upcoming fiscal year, we are well-positioned to continue the forward momentum we have created. California remains the standard bearer for our nation, and we're looking forward to another strong year ahead.

- Governor Gavin Newsom

California Jobs First

The California Jobs First Economic Blueprint will guide the state's investments in key sectors to drive sustainable economic growth, innovation, and access to good-paying jobs over the next decade. The complete Economic Blueprint will be released in the coming weeks, along with a grant solicitation for a portion of the remaining \$120 million over three years in competitive funding to support "ready-to-go" projects aligned to the state's strategic sectors, ensuring that every region across California continues to play a critical role in the sustainable growth of the world's fifth largest economy.

Made up of ten key industry sectors, this framework will help streamline the state's economic, business, and workforce development programs to create more jobs faster. The state's thirteen **economic regions engaged more than 10,000** local residents and experts who collectively identified these sectors as key to driving local economies into the future.

Shaheen Accomplishments During Tenure as Chair of the U.S. Senate Committee on Small Business and Entrepreneurship

[Article originally appeared in www.sbc.senate.gov]

U.S. Senator Jeanne Shaheen (D-NH), Chair of the U.S. Senate Committee on Small Business and Entrepreneurship (SBC), today issued the following statement on her tenure as Chair of the committee.

"As Chair, I brought New Hampshire voices to Washington to share their insight on key challenges faced by Granite State—and America's—small business owners, moving key legislation through the negotiation process and out of com-

mittee," said Chair Shaheen. "I will remain a senior member of the committee and will continue to fight for bipartisan support on issue areas like reauthorizing the State Trade Expansion Program (STEP), promoting legislation that helps lower costs for small business owners and addressing the challenges small businesses face with child care, including the challenges small business child care providers themselves face."

During her time as Chair of the committee, Shaheen fought for New Hampshire's—and America's—small businesses. Shaheen was

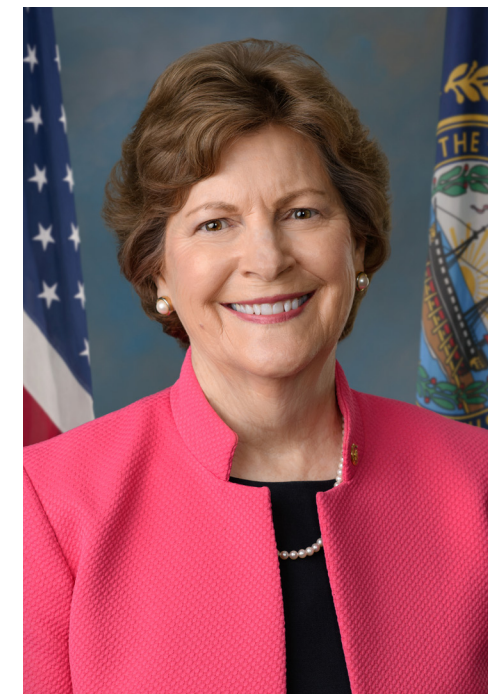

laser-focused on addressing some of the biggest challenges small business owners face, reporting key legislation out of committee that included critical improvements to STEP and improved access to federal contracting opportunities for small businesses.

Fighting for Granite State Small Businesses

Shaheen included \$4.5 million for individual projects supporting small business development across the Granite State in Fiscal Year 2025 funding that passed the Senate Appropriations Committee unanimously, in addition to more than \$100 million in Congressionally Directed Spending in the fiscal year 2024 government funding bills to address New Hampshire needs including housing, health care and education.

Lowering Costs for Small Businesses

Shaheen hosted a state field hearing and resource fair at the University of New Hampshire at Manchester on historic investments from the Bipartisan Infrastructure Law and the Inflation Reduction Act that can help small businesses

U.S. Senator Jeanne Shaheen

WORKFORCE DEVELOPMENT

San Francisco helps over 17,000 workers with labor enforcement and restitution.

[Article originally appeared in www.sf.gov]

The San Francisco Office of Labor Standards Enforcement (OLSE) announces assisting over 17,000 workers in Fiscal Year 2024, the highest number assisted since the office's inception in 2001.

OLSE, a division within the Office of the City Administrator, is dedicated to protecting the rights and welfare of San Francisco's workers. This year, the office resolved over 400 cases, recovering more than \$16 million in restitution and fees. Through enforcing labor laws, addressing worker complaints, and conducting proactive outreach to both workers and employers, OLSE continues to ensure fairness and accountability across the city.

San Francisco has consistently set the standard for protecting workers' rights. It was the first city in the nation to establish a local minimum wage,

paid sick leave, paid parental leave, and health-care access for employees. Today, more than 60 cities have adopted similar policies, like our paid sick leave policy, building on the trailblazing framework created in San Francisco.

This year, OLSE partnered with the U.S. Department of Labor and the California Division of Labor Standards Enforcement in its first inter-agency enforcement action. Through this tri-agency initiative, over \$900,000 was successfully recovered, benefiting more than 38 workers. This collaboration highlights the importance of coordinated efforts to uphold workers' rights and ensure accountability for labor law violations.

"The work of the Office of Labor Standards Enforcement has a tangible and lasting impact on the lives of our city's workers. This year is no exception with the staff resolving a record number of cases and providing assistance to over 17,000 workers," said City Administrator Carmen Chu. "Under the leadership of Pat Mul-

ligan, I continue to be impressed by and want to thank the OLSE team for the commitment and urgency they show in upholding workers' rights and to ensuring workers receive the compensation they are owed."

Year after year, OLSE centers San Francisco workers by enforcing the trailblazing and comprehensive legislation passed through the Board of Supervisors and San Francisco voters.

In the last fiscal year alone, the Office of Labor Standards Enforcement has:

- Rolled out the first San Francisco Labor and Employment Code which establishes labor standards within the city, encompassing various ordinances that set minimum wages, mandate paid sick leave, and ensure health care security, among other worker protections.
- Implemented the Transfer Tax Reduction for Union Labor-Built and Union Pension

Fund-Financed Housing Ordinance which can reduce real property transfer tax rates in high-value residential rental properties if they meet specific criteria.

- Operationalized the Housing Production – Prevailing Wage requirements on Certain Housing codes law which mandates that workers involved in specific housing development projects on city-owned or leased properties receive wages equivalent to the prevailing rates for their respective trades.

"I am proud of the OLSE team for fostering a culture of compliance that protects workers and ensures fairness for employers. By implementing new efficiencies OLSE will continue to strengthen worker protections and address new challenges," said Patrick Mulligan, Director of the Office of Labor Standards Enforcement.

Shaheen Reflects on Accomplishments During Tenure as Chair of the U.S. Senate Committee

Continued from page 1

lower their energy costs, transition to the clean energy economy and build resilience. Following the field hearing, small businesses participated in a resource fair and met with federal agencies and state business support programs.

Shaheen also worked with Senator Cassidy (R-LA) to introduce the bipartisan Helping Small Businesses to Hedge Risk and Insure against Volatile Expenses (Helping Small Businesses THRIVE) Act. The bill directs the Small Business Administration (SBA) to create a program that helps small businesses lock in the cost of commodities, like gasoline or lumber, in order to protect against inflation.

Addressing Child Care Workforce Issues

Shaheen convened a hearing that featured testimony from expert witnesses on the child care industry's broken business model and what Congress can do to support small business child care providers, employees and families. In the New Hampshire Business Review, Shaheen shined a light on the importance of ensuring access to affordable and high-quality child care for

women entrepreneurs. Shaheen continues to call for Congress to pass legislation that addresses America's child care crisis, including her Right Start Child Care and Education Act to improve the tax code to help make child care more affordable and accessible for working families, as well as her bipartisan Expanding Access to Child Care for Military Families Act. She also highlighted an SBA issue brief that offers a clear picture of the many small business challenges that increase child care costs for working families.

Improving Support for Rural Small Businesses

Shaheen joined U.S. Senator John Kennedy (R-LA) to introduce bipartisan legislation that improves support for rural small businesses and convened a hearing to hear from witnesses who discussed the challenges that rural small businesses face and how federal efforts to streamline services can help their firms grow.

Expanding Export Opportunities for Small Businesses

Shaheen hosted a field hearing and resource fair at the University of New Hampshire on programs and resources, including STEP, available

for Granite State small businesses to compete in the global marketplace. Shaheen later celebrated the first cohort of graduates from the New Hampshire Export Accelerator, a program funded through STEP, and highlighted a \$500,000 STEP award from the SBA to help Granite State small businesses tap into international markets.

Supporting Veteran Entrepreneurs

Shaheen introduced legislation to expand access to credit for veteran entrepreneurs and convened a hearing on the state of veteran small business ownership. In the National Defense Authorization Act (NDAA) for Fiscal Year 2025, Shaheen worked to include several provisions that support small businesses, including codifying SBA's Boots to Business program, which offers entrepreneurial training to service members, military spouses, veterans and National Guard and Reserve members.

Bringing New Hampshire Voices to Washington and Increasing Access for Disabled Entrepreneurs

In her first three months as Chair, Shaheen invited Granite State small businesses to Washington for their testimony on America's outdoor recre-

ation economy and small business succession planning. Shaheen also worked across the aisle to introduce bipartisan legislation that expands support for disabled entrepreneurs.

Shining a Spotlight on Small Businesses in the Outdoor Recreation Economy

In her first hearing as Chair, Shaheen highlighted the key role small businesses in New Hampshire and around the country play in America's outdoor recreation economy. The outdoor recreation economy supports 5 million jobs and generates \$1.2 trillion in economic output, according to the most recent data published by the U.S. Department of Commerce's Bureau of Economic Analysis (BEA). That data is collected thanks to Shaheen's bipartisan Outdoor Recreation Jobs and Impact Act of 2015 with former Senator Cory Gardner (R-CO) that was signed into law in 2016.

AECOM Technical Services, Inc.
300 S. Grand Avenue, Suite 900, Los Angeles, CA 90071 • T: 213.593.8100

Request for LA Metro-Certified DBE, SBE, and DVBE Subconsultants
AECOM is bidding on the following project as Prime Contractor:

Owner: Los Angeles Metropolitan Transportation Authority (LACMTA)
RFP No. AE128314E0132
Project: Supplemental Engineering Services - Capital Improvement Projects
Bid Date: February 3, 2025

AECOM is seeking qualifications from Disadvantaged Business Enterprise (DBE), Small Business Enterprise (SBE), and Disabled Veteran Business Enterprise (DVBE) companies for consideration as part of our team for the anticipated 5-year contract providing supplemental engineering services for capital improvement projects to LACMTA. As part of the requirements of the RFP, interested firms must, at a minimum, be certified by the California Unified Certification Program, as well as the North American Industry Classification System. DBE firms certified through the LACMTA DBE certified list are encouraged to submit information.

We are welcoming all firms who provide services under the following NAICS codes:
541990, 541330, 541620, 561110, 541370, 541380

And those who provide services under the following UNSPCS codes:
71161610, 81101514, 81100000, 81101500, 81101505, 81101518, 81101508, 81101523, 81101514, 81102201, 77000000, 77100000, 81101505, 77101505, 77101600, 77101601, 77101700, 81111503, 80161500, 80101600, 81151604, 81151901, 81151601, 71171506

This solicitation is in response to LACMTA's DBE, SBE, and DVBE requirements; AECOM will extend opportunities to DBE, SBE, and DVBE firms, and conduct themselves in good faith with firms seeking subcontract opportunities for this contract.

Interested businesses should email a firm profile, a listing of NAICS or UNSPCS codes under which the firm provides services, a brief overview of LACMTA or similar experience, and copies of their D/S/DVBE documentation by **Monday, January 20, 2025** to Kevin Woodall at kevin.woodall@aecom.com.

ANVIL BUILDERS INC.
1550 Park Ave. Emeryville, CA 94608
Phone: 415-285-5000 • Fax: 415-285-5005

Request for LBE Subcontractors and Suppliers for
Project: Sunol Valley Water Treatment Plant Short Term Improvements
Contract No: WD-2909
Bid Date: January 16, 2025 • Bid Time: 2:00 PM

The objective of the project is to improve several treatment systems at the Sunol Valley Water Treatment Plant. This includes repair of sediment and flocculant basin concrete; replacement of sludge removal equipment, channel and filter valves, cationic polymer system, and sample pumps; and installation of chemical piping. In addition, a new utility water pump station will be installed to support the facility. The work is to be performed in Alameda County, California.

Seeking all trades (but not limited to): Demo, Concrete, Rebar, Misc Metals, Fencing, Plumbing/ Process Pipe, Asphalt Paving, Security Guard, Welding, Waterproofing, Hydroseed, and other required work and trades.

This project requires a confidentiality agreement. For plans, specifications, and requirements, please email estimating@anvilbuilders.com to be added to our confidentiality agreement. A link will then be provided with the plans and specifications. By submitting a proposal, your company agrees to Anvil Builders Inc.'s standard subcontract.

For assistance with bonding, lines of credit, insurance, or anything else regarding bidding on this project, contact Anvil Builders via phone or email.

Will you be bidding this project? Please email or fax your response to estimating@anvilbuilders.com / 415-285-5005.

REYES CONSTRUCTION, INC.
CONSTRUCTION WITHOUT COMPROMISE

REQUEST FOR Sub-Proposals from Certified DBE Firms
Project Name: San Onofre to Pulgas Double Track Phase 2
Contract Number: 4250093
Owner: SANDAG
DBE Goal: 19.6%

Subcontractors/Subconsultants/Vendors wanted for:

(Subcontractors): Fencing & Railing, Street Sweeping, Clear & Grub, Electrical, Hydroseed, Landscape/Planting, CIDH Piles, Waterproofing, Asphalt, Bridge/Structural Steel, Railroad Signal Communications, Railroad Track, Directional Drilling, Dry Utilities, Reinforcing Steel, Trucking, Steel Coating, Minor Concrete - Minor Structures, Retaining Wall, CFA (Auger) Piles, Shoring, Surveying, Signage & Striping, Quality Control and Job Coordinator.

(Suppliers): Ready Mix Concrete, Aggregates, BMP Materials, Topsoil, Rock Slope, Waterworks, RCP, Structural Backfill, Structural Steel, Railroad Ties, Sound Barrier, Bearing Pads, Miscellaneous Metals and Signage

Project Scope:

The Base Bid scope of work consists in general of grading, a new bridge, embankment, construction of drainage ditches, culverts, and retaining wall construction within the limits of MP 216.6 to MP 217.7 on a portion of the LOSSAN commuter rail corridor within Camp Pendleton in San Diego County. An Additive Alternate is included in the scope that includes the construction of 1.1 miles of second main track within the project limits.

Work includes track construction; construction of a new single-track bridge; embankment and retaining wall construction; construction of drainage ditches, culverts, associated structures; site work and track bed preparation (including site clearing, grading, ballast, and sub-ballast, maintenance access roads, utility relocation and hydroseeding); in addition to procuring all materials and performing all other work necessary to complete the work in accordance with the Contract Plans and Special Provisions.

REVISED BID DATE: January 23rd, 2025 at 2:00PST/PDT

REYES CONSTRUCTION, INC.

ESTIMATOR: DAVID CZECH
An Equal Opportunity/ Affirmative Action Employer

DeSilva Gates Construction (DGC) is preparing a bid as a Prime Contractor for the project listed below:

ROUTE 12 – FOR CONSTRUCTION ON STATE HIGHWAY IN SOLANO COUNTY NEAR SUISSUN CITY FROM 0.2 MILE EAST OF LAWLER RANCH PARKWAY TO 0.5 MILE EAST OF SHILOH ROAD

Contract No. 04-2Q5504, Federal-Aid Project ACNH-P012(132)E
Disadvantaged Business Enterprise Goal Assigned is 22%

OWNER: STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION
1727 30th Street, MS 43, Sacramento, CA 95816

REVISED BID DATE: January 22, 2025 @ 2:00 P.M.

DGC is soliciting quotations from certified Disadvantaged Business Enterprises, for the following types of work and supplies/materials including but not limited to:

AC Dike, Bridge Deck Resurfacing, Bridge, Clearing and Grubbing/Demolition, Cold Plane, Concrete Barrier, Construction Area Sign, Emulsion Supplier, Erosion Control, Hazardous Material, Lead Compliance Plan, Metal Beam Guardrail, Minor Concrete, Roadside signs, Rumble Strip, Slurry Seal, Striping, SWPPP Prep/ Water Pollution Control Plan Prepare, Temporary Erosion Control, Testing, Traffic Control Systems, Underground, Vegetation Control, Trucking, Water Trucks, Street Sweeping, Hot Mix Asphalt (Type A) Material, and Rubberized HMA (Gap Grade) Material.

Plans and specifications may be reviewed at our offices located at 11555 Dublin Boulevard, Dublin, CA or 3855 N Freeway Blvd Suite 100, Sacramento, CA 95834, or at your local Builders Exchange, or reviewed and downloaded from the dropbox site at https://www.dropbox.com/sh/5rvdc1bwfbasgl9/AABrd0ba51_kN3GtAESfBUoa?dl=0 or from the Owner's site at www.dot.ca.gov/hq/esc/oe/weekly_ads/all_adv_projects.php

Fax your bid to (925) 803-4263 or email to dgestimating@desilvagates.com to the attention of Estimator David Czech. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

McCarthy Building Companies

515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

LACCD ELAC KWAC Monterey Park, CA

McCarthy Building Companies, Inc. is soliciting interest from qualified subcontractors and suppliers to participate in the bidding for award phase of the project. The Scope of Work includes:

a. LACCD East Los Angeles College, Kinesiology Wellness Athletic Center (ELAC KWAC)

McCarthy and HED have been awarded the LACCD Kinesiology Wellness Athletic Center (KWAC). The KWAC building is a new 96,000 SF consisting of a new competition gymnasium, weight room, lockers rooms, juice bar, studio and fitness rooms, conference rooms, classrooms, offices, workstation areas, huddle rooms, Physical Therapy lab spaces, support spaces, and Rooftop PV. The existing Bungalows portables and parking lot areas will need to be demolished prior to the start of KWAC construction. The existing Child Development Center is an active building which needs to be maintained throughout construction while the existing Men's Gym needs to remain active until the KWAC Building is completed. The new KWAC Building will connect to the existing campus hydronic loop at the CUP, the campus Medium Voltage Loop and the campus communication fiber loop. The new Site work includes a new Multipurpose Field, public gathering/seating areas, landscape areas, and a new fire access road.

Bidders will be awarded a Stipulated Sum (Lump Sum) Design Build/Assist Contract. The contract will require Part A & Part B services (Part A = Design & Preconstruction Costs; Part B = Construction Costs). Each Bid Trade Package will have the specific Part A design and preconstruction responsibilities outlined in a McCarthy Scope Sheet.

Note: LACCD requires contractors to be able to satisfy their Project Labor Agreement (PLA). Technology contractors must be pre-approved with LACCD.

Project Location: 1301 Avenida Cesar Chavez, Monterey Park, CA 91754

Work categories to be awarded include: Structural Steel, and High Density Shelving.

Key Subcontractor Qualifications: Design-build experience; bondable and prequalified with McCarthy Building Co.

Key Dates (subject to change): Request for Proposals (RFP) issued to Subcontractors – 12/20/24 via Building Connected; RFI's Due 1/08/25; Proposals Due to McCarthy – 1/17/25.

- * - This project will require subcontractors to sign the Project Labor Agreement (PLA)
- * - This project contains an Owner Controlled Insurance Program (OCIP)
- * - A 100% Performance and Payment Bond from an admitted surety will be required upon award of contract for all trades.
- * - McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation.
- * - LACCD requires an EMR of 1.24 or lower.

Phone (707) 410-5070
An Equal Opportunity Employer

CMD certified San Francisco Micro & Small-LBE and PUC-LBE Subcontractor/Supplier Bids Requested For:
San Francisco Public Utilities Commission
Sunol Valley Water Treatment Plant Short Term Improvements (Sunol, CA)
Contract No. WD-2909
REVISED BID DATE: Thursday, January 16th, 2025 at 2pm

LBE Requirement: 11%
Subcontracting Participation Breakdown: 4.9% MBE; 1.8% WBE; 4.3% OBE
Total Project Value: \$45M - \$50M

Email quotes to jmiranda@shimmick.com and ebrosnan@shimmick.com

Bid Items: Shimmick Construction Company, Inc. is requesting quotes from certified LBE subcontractors and suppliers in the following scopes of work, including, but not limited to, the following. Please reach out to the lead estimator listed below for more details on scopes needed:

Welding Contractor; Reinforcing Steel Contractor; Pipeline Contractor; Fencing Contractor; Sanitation Systems Contractor; Earthwork & Paving; Painting; Traffic Control Services; Concrete Contractor; Metal Products Contractor; Scaffolding Contractor; Trucking & Hauling; Fencing Materials & Supplies; Photography Services

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator for assistance with breaking down items of work into economically feasible units, assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or any additional assistance. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote.

Plans and Specifications: Plans and specifications are protected by a Confidentiality Agreement. For more information on how to access the plans and specifications, please visit <https://webapps.sfpuc.org/bids/BidDetail.aspx?bidid=4521>. You may also contact Jamie Miranda at jmiranda@shimmick.com for assistance.

The Bid Documents are also available for inspection at SFPUC Contractors Assistance Center. Please visit <https://sfpuc.org/construction-contracts/contractor-assistance/contractors-assistance-center> for additional information.

Shimmick Contacts: Should you require assistance with your bid, please contact our lead estimator Erin Brosnan at ebrosnan@shimmick.com.

Additional Information: 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. For assistance with bonding, insurance or lines of credit contact Amanda Mobley at amanda.mobley@shimmick.com.

Bidders are alerted to the City's surety bond program, which assists LBE contractors in obtaining bonding and financing for contracts awarded by the SFPUC. For further information regarding enrollment eligibility and program services contact Jennifer Elmore at (415) 217-6578.

All subcontractors must possess a current contractor's license and Public Works Registration number (DIR).

Project: Local Advanced Water Purification System (Local AWPS)
ITB Number: 193197 CIP: WQ-19003
Owner: City of Palo Alto
Bid Date: January 31st, 2025 @ 3:00 p.m.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
 Pipe Suppliers, Precast Materials, Steel Tanks, Bypass Pumping, CIDH Piles, Demolition, Electrical-Building, Fencing, Hydroseeding, Landscaping, Reinforcing Steel, Painting/Coatings, Concrete Repair, Concrete, FRP Grating, Crack Repair, Pre-engineered buildings, Misc. Metals, Valves/Water Main/ Temp Facilities, Steel Pipe, Strainers, Insulation, Generators/Switch Gear, Drainage Pumping Equipment, Pumping Plant Electrical Equipment.

Project Description:
 Description of Project: The Local AWPS project consist in two Phases. This IFB is for Phase that will produce 1.125 MGD of RO permeate and will include housekeeping pads for future skids and pipe headers sized enough to accommodate expansion. Phase I Motor Control Centers will also accommodate for Phase II electrical loads. The permeate produced from the project will be blended with the existing tertiary-treated recycled water to achieve an instantaneous TDS concentration of 400 to 500 mg/L. The Local AWPS will be constructed without interruption to the current treatment operations, except as allowed under special circumstances, such as piping and utility tie-ins. The electrical service, potable water service and fire water supply will be independent from the RWQCP service. New service connections will be made with City of Palo Alto Utilities (CPAU).

Engineers Estimate: \$53.5 Million
Project information, including plans & specifications can be found by contacting:
estimating@mountaincascade.com

Please feel free to contact Mountain Cascade, Inc. at 925.373.8370 with any questions concerning bonding, insurance, lines of credit, and job overview. We look forward to your response.

Project Name: 1123 Sutter GMP Bid Request
Location: San Francisco, California
Bid Due: January 27, 2025
Job Walk: January 17, 2025 @ 8am

Labor Requirements:
 • **Prevailing Wage**

Project Schedule: Est. Start – March 24, 2025 Project Duration: 24 Months

Nibbi Brothers has been selected as the General Contractor for the 1123 Sutter project in San Francisco. We are in receipt of the Bid Set and are currently requesting bid proposals from qualified subcontractors for selected trades. Subcontractors received an email notification via Building Connected to access and download associated files. **Proposals are due no later than 5:00 PM on Monday, January 27th online via the Building Connected website.** Project duration is 24 months. Pre bid RFI's due January 20, 2025

This new mixed-use development will be located at 1123 Sutter on an approximately 29,700sf site, currently occupied by two structures: an auto repair shop with public garage (at 1101 Sutter) and a mortuary (at 1123 Sutter). At the west side of the site, the mortuary will be removed for new construction of a 22-story high-rise tower. This high-density development will utilize the individually requested state density bonus program to increase the number of code-permitted units from 149 to 286. In total, the pair of buildings will provide 303 new homes, including 38 below-market-rate units. These new units will be offered on a rental basis. The building is set back from the alley at various distances to accommodate the entry court, an outdoor area for the child-care center, private terraces and balconies, and access to the garage and loading entries. Midway up the tower, on the 7th floor, the building steps back ~40 feet on the west side, to provide a shared landscaped area at this setback. At the 21st floor, another step back is incorporated to create an outdoor landscaped terrace. Additionally the top (22nd) floor provides shared viewpoints, a number of building services, and a community room with associated outdoor roof deck.

For any questions on accessing the bidding documents, please contact Hannah Austin, Precon & Estimating Coordinator via email, HannahA@nibbi.com For project specific questions please contact Anastasia Scorsone, Estimator, via email, AnastasiaS@nibbi.com. Please copy Senior Project Manager, Chris Brown (ChrisB@nibbi.com), when submitting questions.

Project: Brackney Landslide Area Pipeline Risk Reduction Project
CWO # 2020-003
Owner: City of Santa Cruz
Bid Date: February 7th, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to:
 Aggregates, Asphalt, Concrete Material, Slurry, Low Density Cellular Grout, Pipe Suppliers, Analytical Testing, Directional Drilling, Geotech Engineers, Striping, Surveying, Vibration Monitoring, Trucking, Hazmat, Valves/Water Main/ Temp Facilities.

Project Description:
 The Work of this Contract includes the construction of the Newell Creek Pipeline in the Brackney Landslide area in Felton, CA between Glen Arbor Road and Brackney Road. The Brackney Landslide Area Pipeline Risk Reduction project will relocated approximately 2,250 feet of the Newell Creek Pipeline to increase the resiliency and reliability of water supply from the Loch Lomond reservoir. The project area is at particular risk of geotechnical hazards with approximately 2,700 linear feet new 24-inch inside diameter (ID) carrier pipeline, including an approximately 1,685 foot long portion to be installed by horizontal directional drilling (HDD). HDD through deep bedrock formation was determined to be the most cost-effective method to avoid landslide hazards. The project will require new easements for realignment. Due to limited access and construction staging, the project will require close coordination with neighbors and other utility owners, and the County of Santa Cruz.

Engineers Estimate: \$10 Million

SFTC intends to conduct itself in good faith with DBE firms regarding participation on this project. More info about this project is available at www.sftc.vj.com. San Fernando Transit Constructors is an EEO/AA/Vet/Disability Employer.

Project: Hayward WPCF Administration Building
Location: Hayward, CA

Project Bid Date: 1/28/2025 2:00P.M.
Please Submit Bids by: 1/28/2025 1:00P.M.

Owner: City of Hayward
Estimator: Billy-Joel Celeste
Est. Budget: \$36,600,000

We are actively pursuing compliance with the DBE business goals and would appreciate your bid on this project.

Project Description:

Construction, startup, and commissioning of the 21,347 sf WPCF Administration Building, including all engineering, labor, materials, and equipment as required by the Contract Documents, including but not limited to selective demolition and salvaging of existing facilities and systems; site paving and grading; landscaping and other site improvements; yard piping and electrical systems; structural and architectural work; plumbing and heating, ventilation, and air conditioning systems; laboratory; fire alarm and suppression systems; power supply systems; instrumentation and control systems; and all other items necessary for a complete and functional facility.

*** A non-mandatory pre-bid conference will be held on Tuesday December 17, 2024 @ 10 am.

*** **Pre-Bid RFI/Technical questions shall be submitted via Bidnet Direct by COB January 21st by 4:00 pm.**
Please use www.bidnetdirect.com to submit such questions by the deadline.

*** Davis-Bacon Requirements/Prevailing wage rates are required

*** CWA Requirement: This contract is subject to the Community Workforce Agreement (CWA) approved by the Hayward City Council. The successful bidder and all subcontractors, at any tier, will be required to sign an Agreement to be Bound which can be found in Attachment C in the Specifications as a condition precedent to entering into any contract for this project.

***All bidders must hold their bid pricing for 60 days.

***Bid documents are available through Building Connected or from Amoroso's Box site at:

<https://sjamoroso.box.com/v/HaywardWPCFAdministration>

S.J. Amoroso Construction Co., LLC (Amoroso) may require subcontractors to provide 100% Payment & Performance Bonds, from a California admitted surety with an AM Best rating of A-VII or better, as a condition of contract. Amoroso is signatory to the Carpenter's Collective Bargaining Agreement. Amoroso strongly encourages the use of qualified M/W/D/O/S/DVBE subcontractors and vendors. Please include the use of qualified M/W/D/O/S/DVBE suppliers and lower tier subcontractors where applicable. It is the subcontractor's responsibility to review the Owner's General and Special Conditions for this project, as they will be binding. Subcontractors will also be required to execute Amoroso's standard Subcontract Agreement and comply with Amoroso's standard insurance requirements and safety requirements, all without modification, should we both be awarded this project. These documents can be found on our website, www.sjamoroso.com. Amoroso's listing of a subcontractor is not to be construed as an acceptance of all of the sub's conditions or exceptions included with the price quote. Per California Labor Code 1771.1: A contractor or subcontractor shall not be qualified to bid on, be listed in a bid proposal, subject to the requirements of Section 4104 of the Public Contract Code, or engage in the performance of any contract for public work, as defined in this chapter, unless currently registered and qualified to perform public work pursuant to Section 1725.5. Subcontractor's must provide their CA License & DIR Certification numbers with proposals.

WE ARE AN EQUAL OPPORTUNITY EMPLOYER.

Governor Newsom shares California's economic vision and budget

Continued from page 1

Jobs in the North San Joaquin Valley

Today, leaders in the North San Joaquin Valley region presented their regional plan to the Governor and provided information about their key economic sectors:

- Advanced Manufacturing, including building materials, mobility technologies, and measurement and testing products
- Clean Economy, particularly solar energy, green hydrogen, biofuels, and carbon management, an emerging sector with enormous growth potential, driven by the increasing demand for carbon capture and sequestration technologies.
- Bioeconomy, a forward-looking sector that is transforming waste streams from biomass (such as agricultural and forestry residues, municipal solid waste, and food processing byproducts) into valuable bio-products such as fuels, plastics, chemicals, solvents, fabrics, polymers, food additives, and alternative proteins.

A balanced budget and a more efficient government

Continuing to deliver key investments and responsible fiscal management, Governor Newsom previewed the topline of his 2025-26 state budget proposal — a balanced budget that emphasizes fiscal stability and lean and efficient government. The full budget release, accompanied by a briefing led by the Department of Finance, is scheduled for Friday, January 10, 2025.

The Governor's \$322.2 billion proposal includes \$228.9 billion in general fund spending. The proposed budget is fully balanced with no deficit and projects \$16.5 billion in additional revenue above the 2024 Budget Act thanks to a stronger economy, stock market, and cash receipts. It includes savings from the elimination of 6,500 government positions, resulting in \$1.2 billion in savings over two years, alongside operational efficiencies like reduced travel budgets, printing costs, and IT modernizations that further reduce costs by \$3.5 billion.

While introducing no cuts to core programs, the proposal maintains transformative initiatives that include the full implementation of Universal

2025-26 CALIFORNIA BUDGET

\$322.2 BILLION: BALANCED BUDGET
\$228.9 BILLION: GENERAL FUND
\$16.9 BILLION: TOTAL RESERVES

Transitional Kindergarten (TK), expanded after-school and summer programs, and Universal School Meals.

Investments focus on education, economic growth, public safety, and accountability. The full Governor's budget proposal will be released on Friday, January 10, 2025.

California's economic dominance

California remains the fifth-largest economy in the world. With an increasing state population and recent record-high tourism spending, California is the nation's top state for new business starts, access to venture capital funding, and manufacturing, high-tech, and agriculture.

Mayor Breed Announces \$36 Million in Grants for Transit Infrastructure & Street Safety Upgrades

[Article originally appeared in www.sf.gov]

Mayor London N. Breed announced \$36 million in new funding awarded by the Metropolitan Transportation Commission (MTC) in Housing Incentive Pool Grants that will support critical infrastructure projects in San Francisco. The Housing Incentive Pool provides infrastructure grants to promote the production and preservation of affordable housing.

The City of San Francisco was awarded \$35.8 million in funding after building 2,981 qualifying affordable housing units between 2018 and 2022. Funding will support infrastructure improvements, including new traffic signals on Lincoln Way, Folsom and Howard Street improvements, Powell Street streetscape changes, and Yerba Buena Island (YBI) West Side Bridges improvements. Funding will also go to improving the state of the city’s bus fleet to make transit service more reliable.

“This funding is essential to continue our work in making transit more reliable and our streets safer for all,” said Mayor London Breed. “Whether we are maintaining our buses, improving bike lanes, or installing traffic signals to improve traffic flow, we are making transit more efficient, effective, and safer for everyone.”

“I know the traffic headaches and transit delays down Lincoln Way and into Golden Gate Park are a significant quality of life issue for westside residents,” said Sunset District Supervisor Joel Engardio. “This critical funding for infrastructure improvements will help

Sunset and Richmond residents get where they need to go.”

“We’re so grateful for this capital grant, because it allows us to continue funding critical safety and economic recovery projects even as we work to close the gap in our operating budget,” said Jeff Tumlin, SFMTA Director of Transportation.

Lincoln Way Traffic Signal Improvements

This project will include the construction of new signals at two intersections (Lincoln/45th Avenue, Lincoln/La Playa) to reduce vehicle and transit delays on Lincoln Avenue and improve pedestrian and bicycle access to the new Ocean Beach Park. These improvements are part of a broader westside transportation planning program currently underway to identify and recommend infrastructure upgrades on key traffic corridors in the Sunset and Richmond.

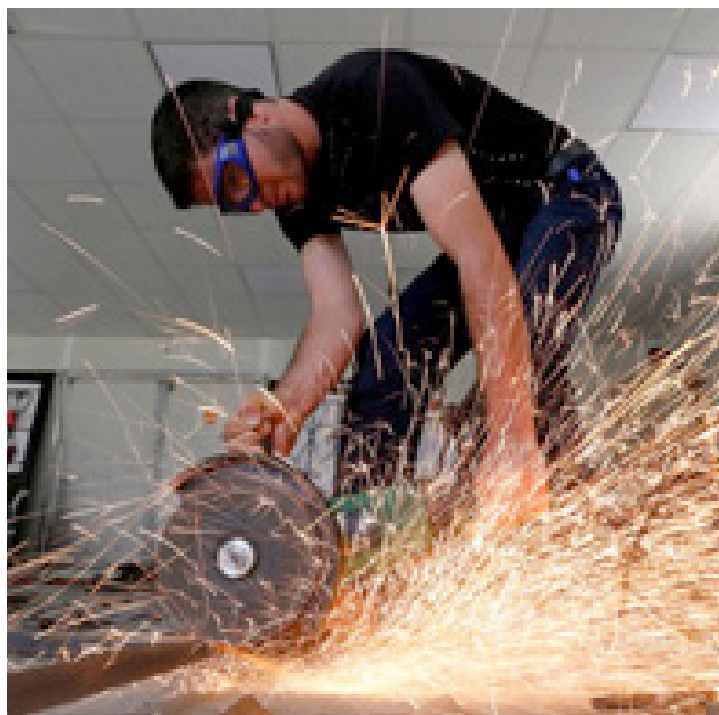

These two new signals would replace existing STOP controlled intersections and will be constructed in conjunction with a new traffic signal already planned to replace a STOP sign at 41st and Lincoln and a traffic signal upgrade at Great Highway at Lincoln. This new infrastructure along the Lincoln Way corridor will ensure there are safe signalized intersections between the Sunset neighborhood and Golden Gate Park, from the Great Highway to Sunset Boulevard. Improvements will include new curb ramps and streetlights.

SUCCESS STORIES

The Stigma of Choosing Trade School Over College

[Article originally appeared in <https://sfdhr.org/>]

Toren Reesman knew from a young age that he and his brothers were expected to attend college and obtain a high-level degree. As a radiologist—a profession that requires 12 years of schooling—his father made clear what he wanted for his boys: “Keep your grades up, get into a good college, get a good degree,” as Reesman recalls it. Of the four Reesman children, one brother has followed this path so far, going to school for dentistry. Reesman attempted to meet this expectation, as well. He enrolled in college after graduating from high school. With his good grades, he got into West Virginia University—but he began his freshman year with dread. He had spent his summers in high school working for his pastor at a custom-cabinetry company. He looked forward each year to honing his woodworking skills, and took joy in creating beautiful things. School did not excite him in the same way. After his first year of college, he decided not to return.

He says pursuing custom woodworking as his lifelong trade was disappointing to his father, but Reesman stood firm in his decision, and became a cabinetmaker. He says his father is now proud and supportive, but breaking with family expectations in order to pursue his passion was a difficult choice

for Reesman—one that many young people are facing in the changing job market.

Traditional-college enrollment rates in the United States have risen this century, from 13.2 million students enrolled in 2000 to 16.9 million students in 2016. This is an increase of 28 percent, according to the National Center for Education Statistics. Meanwhile, trade-school enrollment has also risen, from 9.6 million students in 1999 to 16 million in 2014. This resurgence came after a decline in vocational education in the 1980s and '90s. That dip created a shortage of skilled workers and tradespeople.

Many jobs now require specialized training in technology that bachelor’s programs are usually too broad to address, leading to more “last mile”-type vocational-education programs after the completion of a degree. Programs such as Galvanize aim to teach specific software and coding skills; Always Hired offers a “tech-sales bootcamp” to graduates. The manufacturing, infrastructure, and transportation fields are all expected to grow in the coming years—and many of those jobs likely won’t require a four-year degree.

Small Business **Case Study**

The Orchard Garden Hotel, San Francisco, California

Building Green, Green Hotels
San Francisco’s first truly eco-friendly hotel is “green” from the ground floor to the rooftop.

The Orchard Garden Hotel was the first California hotel awarded LEED (Leadership in Energy & Environmental Design) certification by the U.S. Green Building Council. The Orchard Garden is the third hotel in the U.S. and fourth hotel in the world with this certification.

The Orchard Garden achieved LEED certification in part with its effective building envelope and core system. The building envelope helps reduce energy consumption through its high albedo (ability to reflect the sun’s rays) roof coating, well insulated exterior walls, and effective use of daylighting (window placement to allow more natural light in during the day, eliminating the need to turn on a light switch). Green and high albedo materials constitute more than 75% of the roof area; this lowers the amount of energy needed to cool the building. The hotel has daylighting in more than 82% of the occupied areas.

“The fact that a ‘green’ hotel can be so comfortable and luxurious is yet another plus in your favor.”

-Hotel Guest, February 2007

Photo Credit: Orchard Garden Hotel

The Orchard Garden Hotel in San Francisco (pictured above) saves an estimated 20% of their energy bill yearly from energy efficient procedures.

Business Snapshot
56,000-square foot “green hotel” in downtown San Francisco with 86 guest rooms

Actions to Build Green & Save Energy

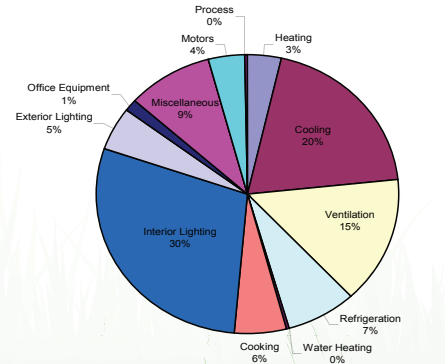

- Installed a cardkey system that starts or stops power to a room when the guest enters or leaves; projected to decrease energy use by 20%
- Uses washable linens and curtains instead of “dry clean only” textiles that are less costly than dry cleaning
- Low flow bathroom toilets and showers and faucet aerators help conserve water
- Uses environmentally preferable cleaning products instead of chemical alternatives

Construction Cost: \$21 million (excluding restaurant costs; hotel was able to achieve LEED certification with a 0.17% or \$35,000 premium)

Estimated Yearly Savings: 20% of energy bill

Snapshot of Typical Lodging Energy Uses

Interior lighting makes up the largest portion of energy use in a typical California lodging facility at 30%, followed by cooling at 20%. This data is from the California Commercial End Use Survey (2006).

Clif Bar & Company, Berkeley, California

Running On Biodiesel
“Clif Bar has been researching alternative fuels for a few years now,” said Bryan Cole, Clif Bar & Company’s director of field experience. “We hope we can inspire consumers and other companies to help protect the planet by sharing our experience and exploration of alternative fuels.”

Clif Bar & Company recently converted its field marketing vehicles to biodiesel. Field marketing managers, including those based in Northern California and San Diego/Arizona area, now drive Dodge Ram 2500 Turbo Diesel trucks more than 120,000 miles a year. Using biodiesel eliminates the need for 8,000 gallons of gasoline annually and results in a 30 ton reduction of carbon dioxide, a major cause of global warming.

Business Snapshot
226 employee firm that makes organic energy and nutrition foods and drinks

Actions to Drive Less & Drive Clean

- Field marketing vehicles operate using biodiesel
- Trucks that transport products from the bakery to the distribution centers are powered by biodiesel
- Established a Cool Commute program to provide financial incentives for employees to minimize use of gasoline powered vehicles
- Employees can receive up to \$1,000 annually to make eco-home improvements that will reduce waste and the use of fossil fuels and/or increase the use of renewable energies.

Estimated Yearly

- Greenhouse Gas Emission Reductions: 30 tons of CO₂

Snapshot of Transportation to Work in Berkeley

Survey results, by Movoto, found that 63% of people use a private vehicle to get to work in Berkeley. Only 11% of people walk or bicycle to work, while 20% of people utilize public transportation (2004).
