

When \$20 Billion Isn't Enough: Water Infrastructure

States are spending about \$20 billion of the flexible funding from the American Rescue Plan Act on water infrastructure. Demand is expected to grow in coming years.

[Article originally appeared in www.governing.com]

By Jared Brey

The Infrastructure Investment and Jobs Act of 2021 included more than \$50 billion in funding for drinking water, wastewater and stormwater management projects. It was a welcome federal investment for many communities that have struggled to keep water infrastructure in good repair in recent decades. And it anticipates a growing need for water infrastructure funding as existing systems age and climate change causes more extreme weather. Still, it doesn't come close to matching the estimated demand in coming decades.

Some states, including many in the West and Southeast, are making extra investments in water infrastructure using flexible funding from an earlier bill, the American Rescue Plan Act. According to new research from the Pew Charitable Trusts, states are spending about 10 percent of the money from the State and Local Fiscal Recovery Funds (SLFRF) program, or around \$20 billion, on water infrastructure upgrades. States' approaches vary widely. Some states, including Idaho, South Dakota and South Carolina, have spent about 60 percent of their SLFRF funding on water, while others, including California, Texas, Minnesota and New York, have used none.

Governing recently spoke with Aleena Oberthur, a project director with Pew's state fiscal policy project, about how states are using federal funds for water needs. The interview has been edited.

Governing: What are the State and Local Fiscal Recovery Funds for, and what are they being used for besides water?

Aleena Oberthur: The State and Local Fiscal Recovery Funds were part of the American Rescue Plan Act in 2021. Over \$350 billion was allocated toward that program, for states, local governments, tribes and territories. Of that, about \$200 billion was allocated to state governments and the District of Columbia.

The funds can cover a wide range of government needs and services. It was explicitly stated that they could be used for water, sewer and broadband infrastructure as well as other types of infrastructure.

Governing: Why is the need for water infrastructure funding so great?

Oberthur: Water utility systems, which are locally managed and so typically are not reflected in the state balance sheet, have been underfunded for years. The share of federal funding that goes to these local water systems for drinking water and what the Environmental Protection Agency (EPA) calls clean water, which covers wastewater and stormwater management, has dropped. In 1977, 63 per-

Photo: Kekyalaynen/Adobe Stock

cent of the funding for capital improvements was covered by the federal government. That dropped to 9 percent by 2017.

Last year, the EPA put out two needs assessments based on state and local needs related to drinking water and clean water infrastructure. Both of them showed a big increase in expected needs. Over the next 20 years, the expected need is over \$1 trillion for drinking water and clean water infrastructure. So this big influx of federal money is very welcome for state and local infrastructure, but there's still a pretty big gap between that and the expected need. And many

experts would say the EPA's needs assessments actually underestimates the need.

Governing: What are the kinds of water projects that states are spending this money on?

Oberthur: There's a huge variation between states. A bunch of states didn't spend any money on water infrastructure, whereas a handful of states spent more than 50 percent of their SLFRF funds on it.

EEOC Releases Promising Practices for Preventing Harassment in the Construction Industry

[Article originally appeared in www.eeoc.gov]

The Equal Employment Opportunity Commission (EEOC) today released Promising Practices for Preventing Harassment in the Construction Industry, a document that highlights key recommendations industry leaders can take to combat harassment in construction.

EEOC Vice Chair Jocelyn Samuels discussed this document at a roundtable hosted by the White House in which other federal agency leaders, employers, trade unions, and others participated. At the roundtable, companies receiving federal grant funding as part of the CHIPS and Science Act discussed their commitments under the CHIPS Women in Construction Framework under which companies voluntarily commit to maintain healthy, safe, and respectful workplaces and prevent and address harassment.

The document supports the EEOC's Strategic Enforcement Plan (SEP) for fiscal years 2024-2028, which, in part, focuses on combatting

systemic harassment, and eliminating barriers in recruitment and hiring, including for groups that are underrepresented in industries like construction.

The document identifies core practices that will help prevent and address harassment in the construction industry: committed and engaged leadership; consistent and demonstrated accountability; strong and comprehensive harassment policies; trusted and accessible complaint procedures; and regular, interactive training tailored to the audience and the organization.

"The unique structure of construction jobs leaves workers especially vulnerable to workplace harassment," said Samuels. "The strategies outlined in our new Promising Practices document will help all construction industry stakeholders identify and take concrete steps to effectively prevent harassment, address it if it occurs, and create a worksite culture that promotes equal opportunity for all workers."

The document identifies the importance of committed leadership as a solution to workplace harassment. One promising practice for project owners, including local and state governments, is to require plans to address harassment in contract bids.

Because construction worksites can have workers employed by multiple entities, another example of a promising practice is for general contractors to provide an anonymous hotline to receive complaints for all onsite workers, in addition to confirming that every subcontractor has implemented its own complaint channel.

Also, it discusses risk factors in the industry that increase the likelihood of harassment, such as workforces that are primarily male; workplaces where there is pressure to conform to traditional stereotypes; and workplaces that are decentralized. These factors may be exacerbated by the presence of multiple employers on a worksite and the cyclical, project-based nature of construction.

"At a time when job opportunities in construction are rapidly growing thanks to historic federal investments, significant harassment and discrimination still hinder equal employment opportunity in the industry," said EEOC Chair Charlotte A. Burrows. "The EEOC is committed to removing barriers to equal opportunity, and these promising practices, together with the agency's updated Enforcement Guidance on Harassment in the Workplace, provide resources to employers to help prevent and respond to harassment."

The promising practices document follows a 2023 report issued by EEOC Chair Charlotte A. Burrows, "Building For the Future: Advancing Equal Employment in the Construction Industry," that examined discrimination based on race, national origin, and sex in the industry through the lens of EEOC cases, witness testimony from a 2022 EEOC hearing, and research. The report, which contains findings and offers next steps, identified a number of barriers that lead to underrepresentation of

McCarthy Building Companies
515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

**Subcontractor Solicitation of Interest
Kenneth Hahn Hall of Administration – Base Isolation Seismic Retrofit
Los Angeles, CA**

McCarthy Building Companies, Inc., working as the Construction Manager at Risk in conjunction with the Department of Public Works for Los Angeles County, is soliciting interest from qualified subcontractors to participate in the bidding for award phase of the project.

Project description: The Hall of Administration Base Isolation Seismic retrofit project consists of the installation of seismic isolators under the foundation of the existing building. Hydraulic jacks and temporary load-bearing shoring will be installed in phases to support and transfer the gravity loads from the existing columns/walls to new support foundations. Seismic strengthening of the superstructure using new concrete shear walls is required at select interior locations. These interior locations will require demolition and reconstruction. Select restrooms will receive ADA upgrades and elevators are to be modernized. A moat gap will be constructed around the building perimeter using earth-retention walls. Shoring and earthwork operations will require demolition and reconstruction of the existing site around the building. Underground utilities will be modified or replaced. This project will be performed at an active site where the building is occupied during typical work hours. Provisions of various sorts will be accommodated so as not to disrupt the occupants of the building.

Project Location: 500 West Temple Street, Los Angeles, CA 90012

Work categories include: Surveying; Final Clean; Security Services; Scaffolding; Hoists & Cranes; Reinforcing Steel; Shotcrete; Exterior Ceramic Paneling; Masonry (CMU); Fiber Reinforced Polymer (FRP); Metal Decking; Finish Carpentry & Casework; Roofing; Insulation; Sheet Metal Flashings; Expansion Control/ Moat Covers; Pneumatic railings, Doors/Frames/Hardware; Window Restoration; Interior Glazing; Elevator Smoke Containment Doors; Fireproofing; Drywall & Framing (Rough Carpentry); Ceramic Tile; Acoustical Ceilings; Resilient Flooring & Carpet; Painting & Wallcoverings; Wall Protection; Signage (Site/Bldg.); Fire Extinguishers/Cabinets; Toilet Partitions & Accessories; Storage Shelving; Window Treatment; Concrete Piles/Tension Piles; Asphalt Concrete Paving; Site Concrete; Fences & Gates; Landscaping & Irrigation; Site Furnishings.

Best Value Selection for: Demolition and Abatement, Structural Steel and Metal Fabrications, Design-Build Elevators, Stone, Waterproofing & Damp-proofing, Earthwork

Key Subcontractor Qualifications: Design-Build experience for: Elevators.

Key Dates: Request for Proposals (RFP) issued to Subcontractors – 06/24/24 via Building Connected website; Proposals Due to McCarthy Building Companies – 08/01/24.

This project requires:

- Prevailing Wages
- Contractor Controlled Insurance Program (CCIP)
- A 100% Performance and Payment Bond from an admitted surety upon award of contract for all trades.
- Community Workforce Agreement (CWA)

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin. Please contact us if you have any questions regarding project specifics:

McCarthy Building Co, Inc.

Contact: Lori Olivas, lori.olivas@jfshea.com**

J.F. Shea Construction, Inc. is soliciting your participation in the preparation of this bid.

We are particularly interested in bids from subcontractors/suppliers for the following work items:
Aggregates, Demolition, Controlled Low Strength Material, Erosion Control, AC Paving, Ready-Mix Concrete, Reinforcing Steel, Masonry, Structural Steel, Metal Roof Decking, Miscellaneous Metals, Architectural Woodwork, FRP Fabrications, Insulation, Roofing, Joint Sealants, Aluminum Flush Doors, Floor Access Doors, Overhead Coiling Doors, Skylight System, Glazing, Metal Framing & Drywall, Ceramic Tiling, Acoustic Panel Ceilings, Resilient Base, Resilient Tile Flooring, Painting & Coatings, Signage, Toilet Accessories, Fire Protection Specialties, Stainless Steel Lab Cabinets, Pre-Engineered Fiberglass Shelters, Fire Suppression, HVAC, Electrical & Instrumentation, Equipment, Monorail System, and Monorail Hoists.

Plans and Specifications: Email your request to: elizabeth.pettus@jfshea.com. Plans may also be viewed at our Walnut Office. J.F. Shea Construction, Inc. is an equal opportunity employer and intends to negotiate in good faith with interested DBE firms and intends to utilize the lowest responsive bidder. J.F. Shea expects potential subcontractors to be bondable. J.F. Shea will pay for up to 1% for subcontractor bond costs. Subcontractors and Suppliers are expected to bid per plans and specifications, including requirements for warranties. Standard manufacturer's warranties, if not in conformance with owner's specifications, will not be accepted.

Diversity Equity Inclusion

SBE's nationwide 1,000,000+ database of certified businesses provides the basis for targeted outreach utilizing a powerful IBM Power9 platform for completed and timed reporting, customized to match client needs.

Key Takeaways from AIA24 to Support Your Project Success

[Article originally appeared in www.constructconnect.com]

By Monica Soladay

This year's AIA Conference on Architecture & Design (AIA24) in Washington, D.C., may have drawn to a close, but here are three key takeaways from the show curated by the ConstructConnect team to help building product manufacturers and preconstruction professionals improve year-round planning, quickly qualify projects, track trends, and ultimately

increase their specification rates and project pipelines.

1) AI Is Transforming the Preconstruction Industry

Artificial intelligence (AI) in construction was a popular topic during AIA24 – and the ConstructConnect team was ready to share how we are incorporating new artificial intelligence-based features in our solutions to help customers streamline workflows and save time.

Interest at the show reflected a growing awareness that generative AI models can help construction industry professionals reduce repetitive work, improve productivity and increase margins. This is particularly important as 1 in 5 construction professionals is 55 years of age or greater, according to data from the U.S. Bureau of Labor Statistics, and the industry's next generation will need support to quickly ramp up and take on future projects.

In response to this growing need, at AIA24, our team showcased ConstructConnect's Takeoff Boost™, a new artificial intelligence-based add-on feature for ConstructConnect On-Screen Takeoff®. Takeoff Boost makes it easier to quickly qualify projects by automatically counting objects, performing area and linear takeoff measurements on architectural floorplans, identifying wall types, and creating conditions automatically. Powered by ConstructConnect's innovative AI, it can

Plans & Specs - Skanska-Coffman Plan Room: https://bit.ly/SCJV_I-15ExpressLnsPlanRoom

The plans and specifications for this project may only be obtained by signing the

"SSI Document Release Form" included in the solicitation as Attachment D.

Please email bids.socal@skanska.com to request the SSI form.

Please submit your bids to Estimating: bids.socal@skanska.com

General Work Description: The project proposes to construct express lanes with price-managed/tolled facilities for both directions of I-15 (Ontario Freeway) from approximately 0.3 miles south of Cantu-Galleano Ranch Road to approximately Baseline Road/Avenue, encompassing the cities of Eastvale, Jurupa Valley, Ontario, Rancho Cucamonga, and Fontana. Requested scopes include, but are not limited to the following and should be based on the Contract and its amendments: Construction area signs, Traffic Control systems, Type II Barricade, Asbestos Compliance Plan, Clearing and Grubbing, Roadway excavation, Structure excavation, Rock Blanket, Landscape and Irrigation, Hydroseed, Asphalt Paving, Concrete Grinding, Concrete Paving, Steel Casing, CIDH Piling, Concrete Barrier, Approach Slabs, Structural Concrete, Minor Concrete, Curb and Gutter, Joint seal, Reinforcing Steel, Structural Shotcrete, Roadside Signs, Overhead Signs, Masonry Walls, Retaining Walls, Ground Monitoring, Bridge Removal, Bridge Monitoring, RCP, Drain Outlet, Box Culverts, Geocomposite Drain, Corrugated Steel Pipe, Rock Slope Protection, Miscellaneous Metals, Steel, PC/PS Bridge Girders, Ground Anchors, Driven Pile, Prestressing, Polyester Bridge Deck Treatment, Chain Link Fence, Guard Railing, Pavement Markings, Striping, Rumble Strip, Electrical Systems, Ramp Metering Systems, Street Sweeping, Trucking, Construction Materials Supply, dowl baskets supply, and Petroleum, Oil Supply.

Requirements: Skanska-Coffman JV (SCJV) is an Equal Opportunity Employer and is requesting quotes from all qualified subcontractors and suppliers. SCJV will assist qualified subcontractors and suppliers in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies. To assist DBE subcontractors and suppliers, we will divide total requirements into smaller packages, tasks or quantities and establish delivery and construction schedules which will permit maximum participation when feasible. If you are a DBE Company, please provide your certification letter with your proposal. If you are a non-DBE, please indicate all lower-tier participation in your quotation as it will be evaluated with your price. Subcontracting Requirements: SCJV's insurance requirements are Commercial General Liability (GL): \$1M ea. occ., \$1M personal injury, \$2M products and completed operations agg. and general agg.; \$1M Auto Liability; \$5M Excess/Umbrella and \$1M Workers Comp. Endorsements and waivers required are the Additional Insured End., Primary Wording End., and a Waiver of Subrogation (GL & WC). Other insurance requirements may be necessary per the scope or RFP requirement. Subcontractors may be required to furnish performance and payment bonds in the full amount of their subcontract by an admitted surety and subject to approval by SCJV. Quotations must be valid for the same duration as specified by the Owner for contract award. Conditions or exceptions in Subcontractor's quote are expressly rejected unless accepted in writing. SCJV is signatory to the Operating Engineers, Laborers, Cement Masons, and Carpenters Unions. Subcontractors must provide weekly, one original and one copy of all certified payrolls, including non-performance and fringe benefit statements if required by law or by the Prime Contract. All Contractors and Subcontractors must be registered with the DIR (Department of Industrial Relations). Include CSLB License Number and DIR Number on All Quotes Submitted. *This was bid previously advertised under Skanska USA Civil.

Skanska-Coffman a JV is an Equal Opportunity/Affirmative Action Employer EEO/AA/Vet/Disability Employer

Sukut Construction, LLC
4010 W. Chandler Avenue, Santa Ana, CA 92704

Contact: Lawrence Damore

Phone: (714) 540-5351 • Fax: (714) 545-2003 • Email: estimating@sukut.com

Plans/specs are available for viewing at our office by appointment, by Sukut FTP, or from Owner. Subcontractors must be prepared to furnish 100% performance and payment bonds and possess current insurance and workers' comp coverage. Sukut will assist qualified subcontractors in obtaining bonds, insurance, and/or lines of credit. Subcontractors/vendors will be required to sign Sukut's Standard Subcontract/Purchase Order. Copies are available for examination. Please contact Lawrence Damore at Sukut Construction for assistance in responding to this solicitation.

Sukut Construction's listing of a Subcontractor in its bid to the agency is not to be construed as an acceptance of all the Subcontractor's conditions or exceptions included with Subcontractor's price quotes. Quotations must be valid for the same duration as specified by Owner for contract award.

Sukut Construction, LLC • An Equal Opportunity Employer

Project: Contract No. 11-430324 – Route 805-15 Separation to Route 805-52 Separation

Owner: Department of Transportation (CALTRANS)

Bid Due Date: July 17, 2024, at 2:00 PM

Federal-Aid Project: ACIM-8051(645)E

Request for quotes from Certified DBE Subcontractors and Suppliers for the following, but not limited to scopes of work:

Aggregate Supply, Asphalt Dike, Asphalt Paving, Bridge Demo, CIDH Pile, Clear and Grub, Cold Plane AC, Concrete Barrier, Construction Area Signs, Demolition, Electrical, Erosion Control, Fencing, Grind Existing Pavement, Guardrail, Hydroseed-ing, Joint Seal, Joint Seal Assembly Supply, Landscape and Irrigation, Minor Concrete, Misc. Iron and Steel Supply, Misc. Metals Supply, Overhead Signs, Pipe Supply, Pre/Post Construction Survey, QC Testing, Railing, Ready Mix Concrete Supply, Reinforcing Steel, Roadside Signs, Rock Slope Protection, Saw and Seal PCC, Slope Paving, Street Sweeping, Striping, Traffic Control Materials, Underground, and Water Truck.

PLEASE SUBMIT QUOTES BY EMAIL TO SOCALBIDS@FLATIRONCORP.COM OR FAX TO (858) 271-1330

Plans and specifications are available, at no cost, from Caltrans <https://ppmoe.dot.ca.gov/des/oe/weekly-ads/oe-project.php?q=11-430324> (Registration Required). Additionally, plans and specifications are available to view at Flatiron's San Diego, CA and Chino, CA offices. Please call to make an appointment to view the documents.

This project has a 23% DBE Goal. In addition to request for participation from DBE subcontractors and suppliers, Flatiron requests non-DBE subcontractors to provide lower-tier DBE participation. Bidders are required to indicate lower-tier DBE participation information to be evaluated as part of their quote.

Quotes must be valid for same duration as specified by Owner for contract award. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Flatiron intends to work cooperatively with all firms for scopes of work you are licensed and qualified to perform. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies, and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and insurance requirements. A copy of the document in electronic format is available upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%. The surety on the bonds must be a California admitted surety.

Key Takeaways from AIA24 to Support Your Project Success

Continued from page 3

perform review and perform specific measure-ments on up to five pages of plan documents in as little as 30 seconds, giving professionals more time to focus on what matters most: ana-lyzing results, perfecting pricing, and winning more bids.

2) Renovations Are on the Rise as the Market Favors Buying Over Building

During the conference, ConstructConnect's Sr. Economist, Michael Guckes, presented "Build-ing Beyond Today: Preparing Construction Leaders for Tomorrow's Economy." Guckes

drew upon ConstructConnect's proprietary eco-nomic analysis to share our latest Construction Starts Forecast through 2028.

Among the opportunities he discussed, renovation work seemed to most catch the audience's inter-est. With today's combination of high construction costs and falling commercial real estate prices, renovation has become more appealing for value-conscious commercial real estate owners.
