

A New World of Construction with AI & Robotics

[Article originally appeared in www.constructconnect.com]

By Kaiya Barrett

A new age of construction is here, involving things that sound straight out of a sci-fi movie. With construction workers used to ‘doing it all,’ using robots or AI during the pre-construction planning process or on-site may feel unnatural.

Where you may need AI- assistance:

- Planning and organizing
- The back-breaking labor that comes with building

If you’re still unsure, just look at the parts of our industry that have already embraced this new technology.

A few examples are:

- Robotic heat welders
- Remote-controlled demolition robots
- Use of AI in modular and prefab construction

Think of AI and robotics as a partnership or a support beam that takes stress off your human workers. So, what’s the present and future of AI and robotics in construction? If you’re considering using robotics or AI in your own workflows, here are some resources to get you started.

Image credit: <https://media.biltrax.com>

Robotics in Construction – working smarter, not harder.

Robots are being used to make work on the construction site faster, safer, and easier. The Construction Record Podcast™ looks at the current role of robotics in the construction industry, the latest innovations, and how using robots on job sites is helping both new and experienced workers.

Some recent episodes on this topic included information about:

- New innovations, such as Hilti’s JaiBot drilling robot.
- Drawing in younger workers and allowing older workers to work in new ways.

AI, Robotics, and the Labor Crisis.

Finding qualified construction workers is an ongoing problem. How big? A recent AGC (Associated General Contractors) workforce survey shows that “88% of construction firms are having a hard time finding workers to hire.” You can point your finger at several reasons for the shortage including a lack of new

New Funding to Support Technical Assistance for Small Businesses

[Article originally appeared in <https://home.treasury.gov>]

The U.S. Department of the Treasury announced the approval of plans for an additional \$10 million in technical assistance (TA) funding allocated to four states, two territories, the District of Columbia, and one Tribal government under the American Rescue Plan Act’s State Small Business Credit Initiative (SSBCI) TA Grant Program. Included in these approvals is the first SSBCI TA grant for a Tribal government.

Part of President Biden’s economic agenda, the SSBCI TA Grant Program supports programs that provide legal, accounting, and financial advisory services to qualifying small businesses. Treasury allocated \$200 million by formula to states, the District of Columbia, territories, and Tribal governments for the TA Grant Program and, as of today, has announced awards totaling over \$145 million.

“Today’s announcement reinforces President Biden’s commitment to invest in small businesses and entrepreneurs,” said U.S. Deputy Secretary of the Treasury Wally Adeyemo. “Providing help to entrepreneurs like accounting services and legal advice is critical to unlocking their potential for growth and to continuing the nation’s historic small business boom.”

Reauthorized and expanded by the American Rescue Plan Act, SSBCI is a nearly \$10 billion program to support small businesses and entrepreneurship in communities across the United States to promote small business stability, growth, and success- in states, the District of Columbia, territories, and Tribal governments. In addition to the TA Grant Program, Treasury also administers the SSBCI Capital Program, where participating jurisdictions implement credit and equity/venture capital programs to provide capital to small businesses.

The first Tribal government to receive a TA grant is Levelock Village. Approved for \$65,327 in TA grant funding, Levelock Village will use contractors to provide legal and financial advisory services to underserved and very small businesses participating in the Tribe’s SSBCI-supported direct investment program (previously approved for up to \$627,054) or seeking other small business support. TA programs like that of Levelock Village – a remote Alaska community accessible only by air or water travel with an economy that relies on local fishing and hunting – will support access to capital and small business support services in Indian Country, which are often banking and TA deserts.

The \$10 million TA investment also included four states, two territories, and the District of Columbia. This includes Minnesota, which was approved for \$1,972,321 in TA grant funding, and will use the Minnesota Small Business Develop-

CALIFORNIA PUBLIC TRANSIT

Nearly \$2 billion going to California public transit

[Article originally appeared in www.gov.ca.gov]

Governor Gavin Newsom announced the approval of over \$1.9 billion to support public transportation throughout the state. The funding was approved by the California State Transportation Agency (CalSTA) and is the first wave of funding from the transit recovery package in the 2023-24 state budget.

As part of Senate Bill 125 (2023), a total of \$5.1 billion will be distributed among regional transportation planning agencies over the course of multiple years. This funding comes with the

flexibility to pay for transit operations or capital improvements. The money announced today will go to 22 agencies, with amounts varying based on regional population.

CalSTA anticipates approving additional allocation packages for remaining planning agencies throughout the summer, totaling nearly \$500 million. The remaining SB 125 funds will be approved annually through fiscal year 2027-28.

“California’s commitment to public transit is unwavering, and with billions more in funding in the pipeline – including for zero-emission equipment and operations – we are just getting started in deliv-

ering a more sustainable and equitable transit system for the people of California,” said California Transportation Secretary Toks Omishakin. “I thank Governor Newsom and our legislative leaders for continuing to prioritize public transit.”

The transit recovery package also includes accountability measures to help stabilize transit systems and retool their long-term operations to better align with the needs of the public. As part of that effort, CalSTA has convened the Transit Transformation Task Force to develop policy recommendations to grow transit ridership, improve the transit experience and address long-term operational needs.

More transit dollars on the way

In addition to the transit funding announced today, in April CalSTA put out a call for projects for more than \$900 million in funding through the Transit and Intercity Rail Capital Program (TIRCP). Project applications are due July 23, with an award announcement in October. This follows nearly \$3.5 billion in state funding just last year to expand transit and passenger rail service throughout the state.

TRAINING & EDUCATION

Best Practices for Showing Appreciation to Construction Workers

[Article originally appeared in www.forconstructionpros.com]

By Jason Lamonica, Spec on the Job

Construction work is physically draining. It means being exposed to the weather as well as potentially dangerous conditions, like great heights and moving traffic. It shouldn’t be thankless work as well.

In my experience, however, many construction companies would benefit from making a more active effort to show appreciation to their employees. When construction companies themselves neglect to show appreciation, it contributes to blue-collar employees’ common perception that society undervalues their work or does not respect it appropriately.

Staff in the blue-collar industries deserve thanks and praise just as much as those in other sectors if not more. Businesses in the construction industry can help elevate the status of their workers by validating how essential their laborers are. This is particularly critical today, a time when the industry needs to attract and retain workers to meet surging demand.

The Benefits of Showing Appreciation

The first reason business leaders and managers should acknowledge their workers’ hard work and dedication is that it boosts their morale. Construction workers rightfully take pride in the buildings and other projects they help to build. Showing appreciation for their work validates that pride. It also cultivates the feelings of ownership that are vital to completing large projects.

In addition, when managers praise their team members’ efforts, it increases their motivation and commitment to the company. When managers support and demonstrate loyalty to their employees, they often get it back in return, and retention tends to improve.

Indeed, in one study, turnover was 31 percent less at companies with a strong culture of employee recognition. In another, 53 percent of surveyed workers said they would stay longer at their current employer if their manager would show more appreciation.

In short, granting recognition creates the conditions that lead to higher productivity. Indeed, Gallup has found that businesses with official employee-appreciation programs tend to outperform those without. That’s why it’s in construc-

tion businesses’ own best interest to prioritize gratitude and reward good work.

Yet the Gallup study also found that only one in three American workers report being praised for their good work over the previous week. Furthermore, the authors note that employees at many companies are accustomed to giving their best only to have their efforts ignored.

The Danger of Failing to Show Appreciation

Negative outcomes can result if staff aren’t shown adequate appreciation for their work. Employees can become demoralized and lose motivation. It is also common for them to start missing deadlines. Communication can break down, leading to problems with teamwork and collaboration. When workers don’t feel respected, their tension and resentment can pollute the entire team’s atmosphere. A toxic company culture can develop.

Undervalued employees may also seek opportunities elsewhere. Gallup has found that when employees do not feel like they are receiving adequate recognition, they are two times more likely to plan on quitting in the upcoming year.

Construction companies know how losing employees can negatively affect a job site — the entire project can be delayed. Showing appre-

ciation to employees is clearly important in this industry. But when it comes to construction in particular, what are the best ways to do this?

Basic Ways to Show Appreciation

In my experience, construction companies looking to retain their workers through appreciation must first take care of some basics. Compensation levels need to be competitive, and the same holds true for benefits packages. Today’s workers also value autonomy and flexibility, so construction companies that can offer these policies — and back them up in reality — will position themselves well to succeed in today’s labor market.

Another essential thing to work on is creating an inclusive workplace. Today, the only way construction companies will fill their ranks successfully is by recruiting people from a wide variety of backgrounds. To attract workers and keep them in their roles, however, these companies must ensure they feel safe and like they belong.

**Subcontractor Solicitation of Interest
 Kenneth Hahn Hall of Administration – Base Isolation Seismic Retrofit
 Los Angeles, CA**

McCarthy Building Companies, Inc., working as the Construction Manager at Risk in conjunction with the Department of Public Works for Los Angeles County, is soliciting interest from qualified subcontractors to participate in the bidding for award phase of the project.

Project description: The Hall of Administration Base Isolation Seismic retrofit project consists of the installation of seismic isolators under the foundation of the existing building. Hydraulic jacks and temporary load-bearing shoring will be installed in phases to support and transfer the gravity loads from the existing columns/walls to new support foundations. Seismic strengthening of the superstructure using new concrete shear walls is required at select interior locations. These interior locations will require demolition and reconstruction. Select restrooms will receive ADA upgrades and elevators are to be modernized. A moat gap will be constructed around the building perimeter using earth-retention walls. Shoring and earthwork operations will require demolition and reconstruction of the existing site around the building. Underground utilities will be modified or replaced. This project will be performed at an active site where the building is occupied during typical work hours. Provisions of various sorts will be accommodated so as not to disrupt the occupants of the building.

Project Location: 500 West Temple Street, Los Angeles, CA 90012

Work categories include: Monitoring; Food Service Equipment (modifications); Asphalt Paving (with Striping)

Key Dates: Request for Proposals (RFP) issued to Subcontractors via Building Connected website; Proposals Due to McCarthy Building Companies – 08/01/24.

This project requires:

- Prevailing Wages
- Contractor Controlled Insurance Program (CCIP)
- A 100% Performance and Payment Bond from an admitted surety upon award of contract for all trades.
- Community Workforce Agreement (CWA)

McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation. All qualified applicants will receive consideration for employment without regard to race, religion, sex, or national origin.

BID DATE: JULY 25, 2024 @ 10:00 A.M.

DGC is soliciting quotations from certified Disadvantaged Business Enterprises, for the following types of work and supplies/materials including but not limited to:

AC Dike, Adjust Iron, Biologist Consultant, Clearing and Grubbing/Demolition, Cold Plane, Emulsion Supplier, Erosion Control, Hydroseeding, Metal Beam Guardrail, Striping, Testing, Traffic Control Systems, Underground, Trucking, Water Trucks, Street Sweeping and Hot Mix Asphalt (Type A) Material

Plans and specifications may be reviewed at our offices located at 11555 Dublin Boulevard, Dublin, CA or 3855 N Freeway Blvd Suite 100, Sacramento, CA 95834, or at your local Builders Exchange, or reviewed and downloaded from the dropbox site at https://www.dropbox.com/sh/5rvdc1bwfbasgl9/AAABrd0ba51_kN3GtAESfBUoa?dl=0 or from the Owner's site at www.dot.ca.gov/hq/esc/oe/weekly_ads/all_adv_projects.php

Fax your bid to (925) 803-4263 or email to dgcestimating@desilvagates.com to the attention of Estimator Paul Brizuela. If you have questions for the Estimator, call at (925) 829-9220. When submitting any public works bid please include your DUNS number and DIR number. For questions regarding registration for DIR use the link at www.dir.ca.gov/Public-Works/PublicWorks.html

If you need DBE support services and assistance in obtaining bonding, lines of credit, insurance, necessary equipment, materials and/or supplies or related assistance or services, for this project call the Estimator at (925) 829-9220, or contact your local Small Business Development Center Network (<http://californiasbdc.org>) or contact the California Southwest Transportation Resource Center (www.transportation.gov/osdbu/SBTRCs). DGC is willing to breakout portions of work to increase the expectation of meeting the DBE goal.

At our discretion, 100% Payment and 100% Performance bonds may be required as a subcontract condition. This will be a PREVAILING WAGE JOB. DGC is an Equal Opportunity/Affirmative Action Employer.

Project Name: First Aqueduct Treated Water Bifurcation Structures and Hubbard Hill Vents Rehabilitation
Located in San Diego, CA

Owner: San Diego County Water Authority
Bid Date: August 6, 2024 @ 2:00p.m.

Request for DBE sub-quotes

Kiewit Infrastructure West Co. (Kiewit) is seeking sub-quotes from Small Business from SCOP Network; Small Disadvantaged Business, or a HUB zone business by the U.S. Small Business Administration; or business certified by the U.S. federal government's System of Award Management; or certified as a Disadvantaged Business Enterprise by Caltrans' or by the one of the signatory agencies within the California Unified Certification Program; or Metropolitan Water District of California's Regional/ Small Business Program; or certified by the City of San Diego's Small Local Business Enterprise and Emerging Local Business Enterprise Program; or certified as a Small Business or as a Disabled Veteran Business Enterprise by the California State Department of General Services.

The work generally consists of site preparation, erosion control, structural rehabilitation and improvements to the exterior and interior of bifurcation and vent structures, site grading, paving, fencing, and all other improvements and appurtenant work.

Kiewit is requesting quotes for various areas of work listed in, but not limited to, the scopes of work below: Quality control, aggregate, demolition, dewatering, soil stabilization, asphalt supply, fencing and structural concrete.

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of Building Connected system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers, and teamsters. Kiewit will consider quotes from any, and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all project participants on this project. For further information regarding this project, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact Scott Nelson, our Lead Estimator.

Kiewit Infrastructure West Co.
10704 Shoemaker Avenue, Santa Fe Springs, CA 90670

PROJECT District 2 Middle-Mile Broadband Network CMGC Project
LOCATION State Highway in Shasta and Siskiyou Counties
OWNER: CALTRANS | Contract #: 02-4J0404, 02-4J041, 02-4J052, 02-4J460

****This is an Electronic Bid Submittal-All bids and intent to bid should be submitted via Constructconnect****

BID SUBMISSION DEADLINE August 5, 2024 @ 2:00 PM
INTENT TO BID: July 19 @ 5:00 PM PREBID QUESTIONS: July 31 @ 2:00 PM

Flatiron-LTS Joint Venture (FLJV) is requesting proposals from subcontractors, service providers, materials suppliers and vendors for the District 2 Middle-Mile Broadband Network Project including the four listed contracts above. This CMGC administered project involves the installation of underground broadband cabling and required appurtenances adjacent to state highways throughout the above listed counties.

Proposals are requested for the following trades/items of work. To include, but not limited to: Hot mix asphalt paving, AC dike, fiber optic cable installation, electrical, utility potholing, landscaping, erosion control, construction area signage, striping & pavement markings, trenching, horizontal directional drilling, trucking services, QC testing, street sweeping, water trucking, biological monitoring services, traffic control, SWPPP, aggregate & sand materials suppliers, Ready mix concrete, 2" Type 1 conduit suppliers, Miscellaneous metals, site clear and grub.

NOTE

- All quotes/proposals should be submitted as valid for 180 days minimum. Construction NTP anticipated March 2025
- Pricing submitted should conform to the Bid Items list along with all noted conditions detailed within the Bid Instructions and Subcontracting work plan pages provided for each scope of work.
- This project and listed subcontractors are subject to State and Federal Prevailing Wage Rates, DIR, and certified payroll reporting requirements.
- Refer to Caltrans new Spec Section 2-1.11 IN-USE OFF-ROAD DIESEL-FUELED VEHICLE LIST.

BIDDING DOCUMENTS Bidding documents can only be downloaded directly from the Project Bid Room in the Construct Connect System (www.constructconnect.com) project ID: 6600759. For any issues please email norcalbids@flatironcorp.com. For any questions specific to an individual work package, please send an email (to the email above), requesting an appointment with one of our estimators. We will be more than happy to schedule a time to assist prior to bid submission.

BID DEADLINE All bids must be received in electronic format (PDF) per the Bid Instructions provided with the project documents and prior to the listed Bid Submission Deadline in order to be considered responsive.

BONDING Notwithstanding any contrary bid language in FLJV bids or any prior course of dealing between FLJV and a bidder, and unless waived in writing by FLJV, FLJV reserves the right, pursuant to Public Contract Code section 4108 and otherwise, to require each bidder to provide payment and performance bonds, assuring bidder's obligations to FLJV in the amount of 100 percent of the submitted bid. FLJV will reimburse bond premiums at actual cost, not to exceed 2% so long as the surety on the bond is a California admitted surety.

Kiewit Infrastructure West Co
Owner: Inland Empire Utilities Agency
Project Name: RP-1 Solids Thickening Project No. EN22044
Location: Ontario, California
Revised Bid Date: August 8, 2024, at 2:00p.m.

Request for DBE sub-quotes

Kiewit Infrastructure West Co. ("Kiewit") is seeking quotes from qualified Disadvantaged Business Enterprises (DBE), including Minority Business Enterprises (MBE), Woman Business Enterprises (WBE), Small Business Enterprises (SBE), Small Business in Rural Area (SBRA), Labor Surplus Area Firms (LSAF), Historically Underutilized Business (HUB) Zone Small Businesses and all other business enterprises to perform as subcontractors, material contractors, and suppliers. DBEs must provide evidence of certification by the U.S. Environmental Protection Agency (US EPA), the Small Business Administration (SBA), the CA DOT DBE Certification Program (CUCP), Tribal, State, and Local Governments, or Independent Private Organization Certifications.

Kiewit is requesting quotes for various areas of work including but not limited to:

Aggregates, geosynthetic, asbestos and lead abatement, trucking and hauling, subsurface investigation, demolition, slope protection and erosion control, grading, subgrade and roadbed, storm water pollution prevention plan, street sweeping, ductile iron pipe, reinforced concrete pipe, plastic pipe, asphalt paving, paving specialties, curb and gutter, fencing, landscaping contractors, ready mix supply, concrete forms and accessories, concrete reinforcing installation, concrete pumping, structural concrete, precast concrete, concrete drilling and saw-cutting, concrete rehabilitation, metals, stainless steel pipe, metal deck, wood and plastic material, finish carpentry, plastic fabrication, damp proofing and waterproofing, building insulation, membrane roofing, flashing and sheet metal, sheet metal roofing, joint sealer, metal doors and frames, overhead doors, plaster and gypsum board, flooring, painting and coating, louvers and vents, exterior signage, fire protection specialties, equipment, solid waste handling equipment, water supply and treatment equipment, mixers and flocculators, chemical feed equipment, sewage and sludge pump, hoists and crane, scaffolding, crane rail, bridge crane, bolts and gaskets, hangers and support, valves, pipes and tubes, plumbing fixtures and equipment, heating, ventilating and air conditioning and electrical work

Firms interested in providing a sub-quote for this project must contact Kiewit and responding firms will be issued an "Invitation to Bid" through Kiewit's electronic use of Building Connected system (at no cost to bidder) with project information and bid instructions. Plans and specifications are also available for review at Kiewit's office.

This is a public works project and is subject to state prevailing wage rates. The Project is financed in part by federal funding sources such as the Water Infrastructure Finance and Innovation Act ("WIFIA") administered by the EPA and is therefore subject to the American Iron and Steel ("AIS") Provisions, DBE Program requirements and the Davis-Bacon Related Acts.

Responsive bidders must possess a valid California Contractor's license (as appropriate) and provide acceptable insurance. Responsible subcontractors and material contractors may be required to provide bonding for 100% of their contract value. Kiewit will reimburse bond premiums. Kiewit is signatory to collective bargaining agreements with the carpenters, laborers, cement masons, ironworkers, operating engineers and teamsters. Kiewit will consider quotes from any and all bidders who demonstrate an ability to foster and maintain labor harmony on the Project.

Kiewit intends to conduct itself in good faith with all project participants on this project. For further information regarding this project, insurance, bonding, related assistance with equipment, supplies, and materials, or the project schedule, please contact our Lead Estimator.

Kiewit Infrastructure West Co.
17074 Shoemaker Avenue, Santa Fe Springs, CA 90670 • Telephone Number: 562-946-1816 • Fax Number: 562-946-3823
Lead Estimator: Scott Nelson • Email: S.Nelson@kiewit.com

Kiewit Infrastructure West Co. is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.

PUBLIC LEGAL NOTICE ADVERTISEMENTS

UNIVERSITY OF CALIFORNIA, IRVINE MEDICAL CENTER

REQUEST FOR QUALIFICATIONS FOR EXECUTIVE ARCHITECT ARCHITECTURAL SERVICES FOR THE UCIH YL, GOTTSCHALK & OUTPATIENT CLINIC PROJECTS

Under the guidelines of CA Public Contract Code 10510.4 – 10510.9, the University is seeking two best qualified firms to provide Architectural Services in support of the Yorba Linda

Clinics, Gottschalk Plaza Tenant Improvements, and the upcoming clinics in the Orange County.

The two selected consultants would provide consulting design and construction administration services to provide a program scope, schedule and budget assessment, design/contract documents and construction administration services.

Design services will be authorized on an “as-needed” basis and are contingent upon project approvals, funding and the quality of services delivered by the design professional.

Est. Contract Value: \$2,000,000 or greater

RFQ DOCUMENTS AVAILABLE 07/12/24. TO OBTAIN RFQ PACKET (REQUIRED FORMS)

Call Kim Kerwin at (714) 456-5735, khau@hs.uci.edu or Maryann Gonzales @ 714-456-8842, maryacgl@hs.uci.edu

Address (1) original, (2) copies of the qualification submittal to **Kim Kerwin, UCIMC Planning, Design & Construction, 101 The City Drive South, Bldg. 27, Rte. 131; Orange, CA 92868.** Deadline for RFQ submittal is 8/2/24 @ 2:00 PM.

Every effort will be made to ensure that all persons shall have equal access to contracts and other business opportunities

with the University, regardless of: race; color; religion; sex; age; ancestry; national origin; sexual orientation; physical or mental disability; veteran's status; medical condition; genetic information; marital status; gender identity; pregnancy; service in the uniformed services; or citizenship within the limits imposed by law or University's policy. The selected consulting firm will be required to show evidence of their Equal Employment Opportunity policy.

A New World of Construction with AI & Robotics

■ Continued from page 1

skilled workers and veteran workers nearing retirement.

More companies are turning to technology to help fill the gaps, streamline workflows, and maximize productivity. You may or may not have already come across new robotic technologies used on job sites to make life easier for workers. Here are a few examples:

- Layouts and measurement tasks
- Demolition
- Jobsites monitoring

As you're thinking about how to bring technology and software into your process and assist with your labor issues, check out the free Labor Guide

SUCCESS STORIES

Joyful Art Studio

[Article originally appeared in
www.norcalbdc.org]

Joyful Art Studio believes in sharing creative gifts with others to bring the JOY of art to the community.

Owner Cristie Baron opened Joyful Art Studio in April of 2017 as a mobile art studio, hosting special events in classrooms, museums, and art galleries.

She opened her brick-and-mortar art studio in Vacaville in 2021 that provides workshops, youth camps, team building, night events, open studio hours, and classes to artists of all ages in mixed media, acrylic painting, watercolors, and wood signs. Joyful Art Studio is truly where creativity reigns.

While owner Cristie Baron is very grateful for her success, the growth came at a fast pace when the studio opened after the COVID pandemic.

In 2017, she was the sole proprietor with no employees. Her first employee came on board in 2021. By mid-2024, she has 12 part-time employees. Her employees include art teachers as well as an event coordinator.

When she was selected to participate in the Solano-Napa SBDC's Solano Success Accelerator program for an opportunity to receive a \$4,000 COVID-relief grant, she jumped at the chance to not only create a pitch deck for her business but also receive guidance on her business growth from Solano-Napa SBDC advisors.

As part of the accelerator program, she was paired with Solano-Napa SBDC advisor Carolynne Gamble. A fellow artist, Baron felt an instant connection with Gamble and the two have been meeting regularly throughout 2024.

“She is amazing, we are like BFFs,” Baron said of Gamble. “I was clueless before and I feel like I should have an MBA now! I’ve taken all the tips and advice I’ve learned from her, and my other advisors and I use them as my accountability partners. I always make myself schedule my next appointment with them before I get off the phone because that helps me to set goals with myself.”

With Gamble’s assistance and encouragement, Baron connected with HR advisor Rhonda Bennett to create an employee handbook. She is also meeting with finance advisor John DeGaetano to solidify pricing for her services. She truly believes the free one-on-one advising with the Solano-Napa SBDC has saved her ‘thousands of dollars’.

“Some of the advisors, I meet with once a month, but Carolynne, I meet with almost every week. We connect really well and as an artist herself, she gets the art component and also the business. She listens and is not afraid to tell me where things need to change. She helps me to get the ball rolling and she is my biggest accountability partner.”

Baron completed the Solano Success program in early 2024 and received a \$4,000 COVID-relief grant.

Utilizing the pitch deck she created in the accelerator, Baron put together a marketing campaign for Joyful Art Studio that she sent to school districts in the area. Even though it was near the end of the school year and most budgets for next year were already finalized, Baron secured four new contracts in just two months in the spring of 2024.

“I can’t even put a price on this. Going through the Solano Success accelerator and working with the SBDC advisors has helped me to really solidify my goals and my purpose, and how to put those things into action.

“I’ll be doing this until they kick me out! I’ve always had a learning mindset, and this is a way I can continue to help others and help my staff to grow. I’m using tools and building these important components that will support all the dynamics of my business.”
