

Nonprofits seek to get more women into construction trades

Pre-apprenticeship participants of the Trades Orientation Program in Santa Clara County, a project of Working Partnerships USA, attend a field trip at the Ironworkers Training Center of San Jose City College in San Jose on Sept. 17, 2024. Photo by Laure Andrillon for CalMatters

[Article originally appeared in www.calmatters.org]

By Fiona Kelliher, CalMatters

Jessica Alvarez Castañeda was sick of low-paying jobs. For years, the 39-year-old mother of four had been “breaking her back for almost nothing” as a cashier, nursing assistant, babysitter, house cleaner and cook.

She was familiar with the skilled trades, which include careers such as carpentry, roofing and painting, because her three brothers worked as pipefitters.

But she hadn’t seriously considered pursuing a trade herself until 2022, when she learned that a friend of a friend — also a woman — had completed a training program to become a sheet metal apprentice.

“I had grabbed a hammer before, but I mean, that’s pretty much it,” said Alvarez Castañeda, who lives in Mountain View, with a laugh. “That was my major concern, that I wasn’t going to be strong enough when I’d be expected to do the same work as a man.”

Women make up about 11% of the construction industry nationally, according to the Bureau of Labor Statistics, underrepresented for reasons such as misperceptions of the industry, family pressures, and treatment in the workplace. But many California trades provide six-figure sala-

ries within a few years, along with health benefits, a pension and union representation — an attractive career path as women increasingly serve as family breadwinners.

With funding from California’s Department of Industrial Relations, training programs and building trades councils are trying to increase the number of women and nonbinary people in a workforce historically dominated by men. They are finding success with targeted recruitment, childcare stipends and one-on-one mentoring.

Alvarez Castañeda signed up for the Trades Orientation Program, hosted by Santa Clara County nonprofit Working Partnerships USA. The program’s yearly enrollment of 90 to 100 people is now about one-third women, said Louise Auerhahn, the nonprofit’s director of economic and workforce policy, a big jump from just one woman in the pilot 2014 class who “was there because her boyfriend was there, too.”

“We’ve found that because there is such a social stricture that says construction is for men, you have to be really up front about, ‘This is for women, and that’s who we’re looking for,’” Auerhahn said. Working Partnerships USA now creates separate fliers, social media ads, photo campaigns and recruitment events to target women and nonbinary people.

\$5 Million to Small Businesses to Bring New CHIPS Technology to the Commercial Market

[Article originally appeared in www.commerce.gov]

The Biden-Harris Administration awarded nearly \$5 million to 17 small businesses across nine states under the Small Business Innovation Research (SBIR) Program. The SBIR Phase I awards will fund research projects to explore the technical merit or feasibility of an innovative idea or technology for developing a viable product or service for introduction in the commercial microelectronics marketplace. This is the first award for the CHIPS Research and Development Office. The Biden-

Harris Administration is dedicated to getting small businesses the resources they need to thrive and promoting competition to level the playing field.

“As we grow the U.S. semiconductor industry, the Biden-Harris Administration is committed to building opportunities for small businesses to prosper. With today’s awards, these 17 businesses will support CHIPS for America’s efforts to grow the U.S. semiconductor ecosystem and support our national and economic security,” said U.S. Secretary of Commerce Gina Raimondo.

NIST measurement science, or metrology, is at the heart of all the advances we anticipate from American chipmakers in coming years, like smaller, faster, chips that take less energy to make, operate and cool, with more functions at less expense.

The award-winning projects were competitively selected from proposals submitted in response to a Notice of Funding Opportunity (NOFO) on multiple topics on research projects for critically needed measurement services, tools, and instrumentation; innovative manufacturing metrologies; novel assurance and provenance technologies and advanced metrology research and development (R&D) testbeds to help secure U.S. leadership in the global semiconductor industry.

These are all Phase I SBIR awards, which are meant to establish the merit, feasibility and commercial potential of the proposed research and development projects. All 17 small businesses will be under consideration for a SBIR Phase II award in Spring 2025. Each Phase II award can be funded up to \$1,910,000.

“NIST and CHIPS for America are proud to support these small businesses as they take innova-

tions, scale them for the commercial marketplace, and boost the U.S. economy. We are happy to support the entrepreneurs with great ideas as they seek to build the next great American company,” said Under Secretary of Commerce for Standards and Technology and National Institute of Standards and Technology (NIST) Director Laurie E. Locascio.

CHIPS Metrology SBIR Awardees

Direct Electron LP (Rancho Bernardo, California)

Develop a novel high-speed camera for high-resolution electron backscatter diffraction and transmission Kikuchi diffraction which will significantly expand the materials properties that can be probed with this technique. This project will benefit U.S. industry using materials characterization for current and next-generation microelectronics devices.

HighRI Optics, Inc (Oakland, California)

Develop cutting-edge technology for calibration of the instrument transfer function of extreme ultraviolet (EUV) lithographic tools.

5 strategies manufacturers can start right now to get your products specified

[Article originally appeared in www.constructconnect.com]

By Derek Guffey,

Building product manufacturers know the importance of getting their products specified. Not only is it revenue, but it's the key to forming long-lasting partnerships and future work with builders and architecture firms.

How can a manufacturer increase their chances of getting specified by architects? Derek Guffey is the perfect person to ask. Prior to joining ConstructConnect as the Vice President of Sales for the building product manufacturer segment, Derek was a practicing architect.

"[The] experience I gained as an architect allowed me a unique position to connect building product manufacturers with the architectural community and the design community," he says.

In this recent podcast with Derek, we asked his advice on what a building product manufacturer might do to improve their chances of getting specified. Here's what he had to say.

"Liability, time, and cost. All of your go-to-market activity should be focused around those." Guffey advises.

Regarding Liability

Know Your Products

"To get specified, you have to be trusted," Guffey says. *"You have to protect that architect from liability. You know, architects carry more liability insurance than doctors do."*

Build Relationships

It takes time to build trust in your brand, and Guffey says networking is an effective way to do it.

A good first step is joining industry associations, such as the Construction Specifications Institute (CSI) and American Institute of Architects (AIA).

ConstructConnect, Deltek, and the AIA partner up to publish the Architect's Journey to Specification every year. The guide helps architects and manufacturers alike stay up-to-date on trends and approaches within the specification process.

"it's a nice playbook for manufacturers talking about the importance of consultative engagement, strategic engagement, and these designers really value these relationships," he says.

Regarding Cost

Practice Consistency and Honesty

The need for trust also expands into cost. Guffey advises manufacturers to be forthcoming on

pricing, and open to input, as early as possible in the design stages.

Being proactive and collaborative about your costs up front can build a stronger rapport with the decision makers, as well as a potential boost to your chances of getting specified.

"I think [being transparent about cost is] just a great tactic to allow them to protect you during the bidding stage and look for reasons why to keep you as products are ultimately being chosen and submitted for that final project."

Final Thoughts

As Guffey looks to the future, he says it's not just architects that manufacturers need to be selling to. He sees change coming to the industry.

DIVERSITY IN CONSTRUCTION

Construction Companies Can Make Diversity Part of Their DNA

[Article originally appeared in www.forconstructionpros.com]

By Adam Tai,

During the past five years, Diversity, Equity, and Inclusion (DE&I) programs have become crucial for fostering non-discriminatory corporate cultures that welcome all individuals. While many construction companies have adopted DE&I policies and strategies, true progress comes from integrating these principles into daily operations. Beyond mere statements, DE&I must be ingrained in how businesses function and turning theory into action.

Create an Inclusive Culture

Creating a supportive culture beyond hiring involves implementing other various initiatives. One of the best ways a team can build an inclusive environment is by encouraging DE&I training up and down the organization. This shows that the company, leadership, and managers promote an inclusive and varied workplace. One

that not only meets the criteria of the short-term goals of diversity but supports future growth by also focusing on retention and opportunities for career development.

Construction firms also must take proactive steps to create an equitable environment by prioritizing open communication and active employee listening to ensure varied perspectives are valued and heard. By providing platforms for dialogue, such as town halls and anonymous suggestion boxes, individuals feel empowered to express their opinions freely.

Encouraging cross-functional collaboration and team-building activities enables interactions among staff from multifaceted backgrounds, fostering mutual understanding and appreciation. Employee training programs emphasize empathy and cultural competence, promoting an open-minded atmosphere. These practices cultivate an environment where all employees feel respected, supported, and con-

fidant in expressing their unique perspectives and contributions.

Equity-Conscious Framework Structures

Creating a fair workplace requires proactive efforts to address equity gaps and support career progression opportunities for underrepresented employees. To achieve this, forward-thinking organizations must adopt equity-conscious framework structures that recognize and address the disparities that people from underrepresented backgrounds face. One crucial step is acknowledging the uneven playing field that many individuals in underrepresented categories start with and actively working to level it.

Construction companies can implement additional support systems to promote equity, such as mentorship programs and targeted training initiatives. Mentorship can provide invaluable guidance and support to employees from underrepresented groups, helping them navigate their career paths and overcome potential obstacles.

Targeted training programs can equip employees with the skills and knowledge necessary for career advancement, ensuring they have equal opportunities for growth and development.

Organizations in the building sector can establish clear pathways for career progression and ensure transparency in the promotion process. Providing employees with a clear understanding of the skills and qualifications needed for advancement can help mitigate subjective decision-making and ensure that promotions are based on merit and talent rather than bias.

Embracing DE&I

Creating a truly inclusive and diverse place to work in the construction industry requires more than surface-level efforts; it demands the integration of DE&I principles into the very fabric of the company culture.

CALIFORNIA SUB-BID REQUEST ADS

Project: LA General Residential Withdrawal Management Facility & Mental Health Urgent Care Clinic
Owner: Los Angeles County Department of Public Works
Location: 1240 North Mission Rd, Los Angeles, CA 90033
Bid Issuance Date: 10/14/24
Bid Due Date: 11/1/24 @ 3pm

Pankow is seeking certified **Minority-Owned, Women-Owned, Disadvantaged, Disabled Veteran, and LGBTQQ** business enterprise subcontractor bid proposals for the scopes of work listed below for the new 2 story 33,650sf **LA General Residential Withdrawal Management Facility & Mental Health Urgent Care Clinic (LA Gen RWMF & MHUCC)**. Bid packages will be released via BuildingConnected on 10/14/24 and bids will be due by 3pm on 11/1/24.

Bidding Scopes:

Caulking	Tile
Building Insulation	Flooring
Signage - DB	Altro - Bathroom Wall Finish (FRP)
Below Grade Waterproofing	Toilet Accessories
CMU	Window Shades
Overhead Operable Partition	Paint
Acoustical Wall Panels	

Project is currently under construction with an anticipated completion date of October of 2025.
 Interested subcontractors shall be aware that recent and relevant LA County is encouraged. Project has a CWA (will be issued as part of bid documents) in place and awarded subcontractors will be required to cover their own GL and WC insurances.

For More Detailed Bidding Scope Information, Responses and Questions
 Scott Fitzsimmons, Sr. Project Manager
 E: sfitzsimmons@pankow.com
 M: 626.842.7271

Outreach Participation & Targeted Workforce Hire Program

- Include at least twenty five (25%) participation by Minority-Owned, Women-Owned, Disadvantaged, Disabled Veteran, and LGBTQQ businesses enterprises based on the value of the work by Subcontractor. Subcontractor shall further stipulate that they will meet the goal by either qualifying themselves as one of the business enterprises listed above or by subcontracting their work to lower tier subcontractors in the amount of 25% of the overall value of the subcontract.
- Commits to meeting the mandatory goals of the Local and Targeted Worker Hiring goals set forth by LA County which includes the following (Exhibit to be issued as part of bid documents):
 - o 50% of total California Construction Labor Hours worked be performed by a qualified Local Resident
 - o 10% of total California Construction Labor Hours worked be performed by County residents classified as Targeted Worker

Pankow Prequalification Process
 All bidders will need to participate in Pankow's prequalification process during the bidding stage for evaluation in order to enter into a subcontract agreement with Pankow.

Bid Documents Bid documents will be issued through BuildingConnected
Selection Criteria Subcontractors will be selected and awarded the project based on best value.

Pankow is an Equal Opportunity Employer

Is requesting quotes from certified and qualified DBE (MBE and WBE) Subcontractors, Suppliers, and Service Providers for the following (but not limited to) work:

SUBCONTRACTORS / SERVICE PROVIDERS
 Asphalt Paving, Cathodic Protection, CCTV Video Inspection, Cold-Planing, Concrete Flatwork, Dewatering, Electrical, Fencing, Ground Penetrating Devices, Hazardous Material Disposal, Manholes, Manhole/Utility Adjusting, Monitoring of Contaminated Soil, Potholing, Project Scheduler (CPM), Safety Representative, Saw Cutting, Shoring, Signage, Street Lighting, Street Sweeping, Striping, Survey, SWPPP, Systems Integration, Traffic Control, Traffic Signal, Trenchless Installation, Trucking, Video Recording of Existing Conditions, Water Treatment, Welding, Welding Inspection

 An Equal Opportunity Employer

Small Business (SB) and Disabled Veteran Business Enterprise (DVBE) Subcontractor/Supplier Bids Requested For:

Department of Water Resources (DWR)
Tisdale Weir Rehabilitation and Fish Passage Project
Specification No. 24-11
REVISED BID DATE: Wednesday, October 30th, 2024 at 2pm
Project Location: Yuba City, CA
Email quotes to jmiranda@shimmick.com

Shimmick Construction Company, Inc. is requesting quotes from certified SB and DVBE subcontractors and suppliers in the following scopes of work, including, but not limited to:

Subcontractors: Architectural; Clear and Grub; Coring; Deck Refinishing; Demolition; Dewatering; Earthwork; Electrical; Environmental; Erosion Control; Fencing; Flatwork; Grouting; Instrumentation; Insulation; Joint Seal; Landscape; Masonry; Mechanical; Paint/Stain; Paving; Piles (CIDH & General); Rebar; Roofing; Sawcutting; Shoring; Soil Stabilization; Survey; Traffic Control; Tree Limbing; Tree Removal; Trucking; Utility Work.

Suppliers: Aggregate; Architectural Items; Doors; Helical Piles; Lumber; Mechanical Equipment; Misc. Metal; Pipe Piling; Ready Mix; Sheet Pile; Steel Pipe; Trench Shoring; Utility Pipe (Plastic & Steel); Valves & Fittings

Plans are available to download on Cal eProcure: <https://caleprocure.ca.gov/pages/Events-BS3/event-search.aspx>. Under "Event Name", enter "Specification". Under "Department", enter "3860" and scroll down until you see the Tisdale Weir Rehabilitation job. You may also contact Jamie Miranda at jmiranda@shimmick.com for a download link to view plans and specifications or to schedule an appointment via Teams to discuss the documents. Meetings are held during regular business hours.

Should you require assistance with your bid, please contact our lead estimator Roxanna Kharrazi at rkharrazi@shimmick.com.

All items of work listed above are made available, even items of work normally performed by Shimmick. Please contact the lead estimator listed above for assistance with breaking down items of work into economically feasible units, with assistance obtaining equipment, supplies, materials, bonding, insurance, estimating, or related assistance. 100% Performance and Payment bonds with a surety company subject to approval of Shimmick Construction Company, Inc. are required of subcontractors for this project. Shimmick Construction will pay bond premium up to 1.5%. Subcontractors will be required to abide by terms and conditions of the AGC Master Labor Agreements and to execute an agreement utilizing the latest SCCI Long Form Standard Subcontract incorporating prime contract terms and conditions, including payment provisions. Shimmick Construction's listing of a Subcontractor is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with the Subcontractor's price quote. Shimmick Construction requires that Subcontractors and Suppliers price quotes be provided at a reasonable time prior to the bid deadline to enable a complete evaluation. For assistance with bonding, insurance or lines of credit contact Amanda Mobley at amanda.mobley@shimmick.com.

San Francisco Champions Events and Small Businesses for Filipino American History Month

[Article originally appeared in www.sf.gov]

October is Filipino American History Month (FAHM), and the Office of Economic & Workforce Development (OEWD) is partnering with SOMA Pilipinas, Kultivate Labs, and small businesses to highlight the Filipino community's many contributions to the fabric of San Francisco and the City's investments in its economic vitality.

Throughout the month, the public can participate in free events, discover Filipino-owned small businesses, and explore the many gems in the Filipino Cultural Heritage District through the Office of Small Business's Shop Dine SF website: sf.gov/filipino-american-history-month.

"This year we mark the 20th year of celebrating Filipino American History Month at City Hall, honoring this vibrant community who have greatly contributed to San Francisco," said Mayor London Breed. "This community is so core to our arts, businesses and cultural innovations, and are committed to ensuring that every resident and visitor is able to enjoy San Francisco's rich Filipino history and legacy. I want to thank SOMA Pilipinas, who have led on preserving the cultural heritage of the Filipino community, including creating the City's first Filipino Cultural Heritage District that serves as a hub for the greater community in San Francisco and across the region."

Mayor Breed hosts the 20th Annual Filipino American History Month Celebration at City Hall on October 10 at 5:30 – 8 p.m. with performances and a community service award ceremony.

"The Office of Economic & Workforce Development is excited to highlight the work we are doing with our community partners and small businesses to strengthen and uplift the Filipino community," said Sarah Dennis Phillips, Executive Director, OEWD. "Filipino heritage has contributed so much to San Francisco's past, and

the community is playing a critical role in our Downtown's future. We are glad that our investments are ensuring that their vital work continues to grow and shape San Francisco."

Kultivate Labs, a non-profit economic development and arts organizations, hosts a Kultivate Labs Takeover at Saluhall October 3, 4 – 7 p.m. at the UNSTAGED: First Thursdays Live event on Mid-Market, sponsored by OEWD. Attendees can check out Legacy Filipino martial arts, live art, and cooking demonstrations and groove to DJs Trixamillion, DJ Mark Maiden, and RJKoolRaul. Kultivate Labs is responsible for introducing San Franciscans to the night market phenomenon. Their first UNDSVCVRD Night Market in 2017 drew more than 8,000 people. On October 19, with funding from OEWD, UNDSVCVRD is back with a Filipino culture crawl throughout SOMA, including stops at Kapwa Gardens and 5M Park. On November 2, Kultivate Labs invites the community to submit photos, names, and stories to "undas," ancestral altars, in Kapwa Gardens.

"Kultivate Labs is proud to partner with the City of San Francisco and the Office of Economic & Workforce Development to celebrate Filipino American History Month by showcasing the creative talents and entrepreneurial spirit of our community," said Desi Danganan, Executive Director, Kultivate Labs. "UNDISCOVERED SF, the first night market ever funded by OEWD, set the stage for other night markets across the City and has played a key role in supporting emerging Filipino businesses and artists. By continuing to contribute to the cultural and economic vibrancy of SOMA Pilipinas, we are building a sustainable ecosystem for the next generation of Filipino creatives and entrepreneurs."

Nonprofits seek to get more women into construction trades

Continued from page 1

But introducing women to the trades is just the first hurdle. Research shows that difficulty finding childcare is a central reason that women consider leaving the trades, creating a “massive barrier” to retention, said Beli Acharya, executive director of Construction Trades Workforce Initiative, a nonprofit that works with building trades councils, unions, and community organizations in Alameda, Napa, Contra Costa and Solano counties. California is among the most expensive states for childcare.

“So much of the industry’s collective efforts has been, ‘Hey, let’s get them in,’ but a lot of folks are dropping out after the first or second year of being an apprentice, and we’re not really achieving the ultimate goal of getting more women in leadership,” Acharya said. “Contractors are trying to figure out how to deal with it, unions are trying to figure out how to deal with it, because if we’re going to try and target more women, we need to address the needs of women.”

That challenge has prompted new efforts, fueled by the Department of Industrial Relations’ Equal Representation in Construction Appren-

ticeship or “ERiCA” grants, to provide childcare to those most in need. Between 2023 and 2025, the department awarded \$2.1 million to the Construction Trades Workforce Initiative to identify around 200 single-parent apprentices and pre-apprentices to receive between \$5,000 and \$10,000 in childcare support.

Fifty-six people have received Construction Trades Workforce Initiative’s stipends so far, more than half of whom are women.

Sharon Brown, a 40-year-old painting apprentice from Oakland and a single parent to three kids, received an \$8,000 stipend from the nonprofit.

The stipend allowed Brown to hire a consistent caregiver to bring her six-year-old daughter to and from school during her early-morning shifts, rather than relying on family.

The stable routine has “helped in ways that I couldn’t even imagine,” Brown said, in part because her daughter is on the autism spectrum and nonverbal. Recently, the caregiver and her daughter came up with a personal handshake. “To see her remember the handshake and actually execute it out, it’s like — wow.

Refer to Caltrans new Spec Section 2-1.11 IN-USE OFF-ROAD DIESEL-FUELED VEHICLE LIST.

Non-DBE Subs/Suppliers: You will be expected to carry a proportionate percentage of 2nd-tier DBE participation with your quote. 2nd-tier DBE participation will be evaluated with your price.

100% performance/payment bonds will be required for the full amount of the subcontract price. Please contact Flatiron for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Provide subcontractor/supplier scopes/quotes as early as possible to enable estimators to perform a thorough evaluation of all quotes received. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Quotes must be valid for the same duration as specified by the Owner for Contract Award. We are signatory to Operating Engineers, Laborers, Cement Masons, Carpenters and Pile Drivers Unions. Non-signatory subs will be required to sign an agreement for trades covered under our union agreements. Flatiron intends to work cooperatively with subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron will reimburse for bond premium up to 2%. **Firms must possess & provide current contractor's license number & DIR Registration number on the quote.** Firms must possess insurance and workers compensation coverage meeting project requirements. Waiver of Subrogation is required. Please contact Flatiron for any assistance required by your firm. Subcontractors/Suppliers will be required to execute our standard agreements and agree to the standard general terms & conditions. Copies are available for review on our Box.com ftp site upon email request.

To view and download projects docs for FREE from the Caltrans website you will need to "Create an Account" with Caltrans Bidding Connect. Use the following link: [DES-PPM&OE - Advertised Projects \(ca.gov\)](https://www.caltrans.ca.gov/PPM&OE-Advertised-Projects) to enter the Advertised Projects page and scroll to Contract number: 06-487404. Sign in is required to access project plans.

To access **FREE** project documents from our Flatiron BOX ftp site, please send an email request to NorCalBids@flatironcorp.com. You will be provided with a BOX link to view & download plans and specs for FREE from our BOX.com ftp site. Please send an email if you would like to schedule an appointment to review project docs virtually or meet with an estimator in our office. These services are offered by appointment only.

Please send all quotes by email to NorCalBids@flatironcorp.com

Please review all documents. By submitting a proposal your company agrees to Anvil Builders Inc standard subcontract. For assistance with bonding, lines of credit, insurance, or anything else regarding bidding on this project, contact Anvil Builders via phone or email.

Will you be bidding this project? Please email or fax your response to estimating@anvilbuilders.com / 415-285-5005.

ANDREW M JORDAN INC dba A & B CONSTRUCTION
225 3rd Street, Oakland, CA 94607
Phone: 510-999-6000 • Fax: 510-982-3636
An Equal Opportunity Employer

A & B Construction (A & B) is preparing a bid as a Prime Contractor for the following project:

East Bay Municipal Utility District (EBMUD)
Pump Station H Rehabilitation Phase II
Estimated Cost: \$9,600,000 - \$11,100,000
Bid Date: October 30, 2024 at 1:30 PM

A & B is soliciting proposals/quotes from all qualified subs and suppliers, for the scopes of work required for the subject project, including but not limited to: **Work includes, but is not limited to replacement of existing equipment and modification of existing infrastructure, including: replacement of main sewage pumps (furnish and install two pumps and furnish one spare), cone valve, effluent gate valve, flow meter, sluice gates, and air compressors; design, testing, installation, and operation of a temporary pump station bypass system; hot tap connection to the existing force main including cathodic protection, excavation, shoring, dewatering, underpinning, backfill, and pavement restoration work; security camera installation; mortar lining and protective coatings work on the discharge header and influent channels; hydraulic oil actuator system and crane rehabilitation; roof handrail installation; piping modifications throughout the building; miscellaneous coating work; associated structural, piping, electrical, and instrumentation work; and all other work as shown in the Contract Documents.**

This project will require multiple trades and types of work; for example (note: this list is not all-inclusive): demolition, saw-cutting, hazardous materials handling, grading, excavation, shoring, dewatering, fill, concrete, rebar, waterproofing, painting, industrial coatings, structural steel, bolting, welding, mechanical, electrical, pipeline, plumbing, fire protection, crane equipment, handrails, guardrails, gratings and railings, doors and windows, fencing, paving, and other required work and trades. For additional description and information, see Document 00 41 01 - Bid Form, Document 00 41 05 - Description of Bid Items, Section 01 11 00 - Summary of Work, and the remaining contract documents.

Plans and Specifications may be obtained from the Owner's website at:

<https://construction-bids.ebmud.com/SpecMain.aspx?SpecGN=9148&BidMode=Current>

Abram McMickin ((510) 999-6000; amcmickin@abconstruction.net) is the estimator for this project and is available to provide assistance or answer questions regarding the project scope of work, bid requirements, bonding and insurance requirements, or any other questions you may have. All proposals/quotes should be emailed to the Estimator or faxed to (510) 982-3636 prior to 12:00 PM on the Bid Date. A & B is willing to breakout any portion of work to encourage participation. All subcontractors are required to execute A & B's standard subcontract agreement and comply with all insurance requirements. A copy of our agreement and insurance requirements are available upon request. At A & B's discretion, 100% payment and 100% performance bonds may be required. A & B is a union contractor and we are signatory to the Laborers, Carpenters, and Operating Engineers unions.

Strengthening Clean Energy in Los Angeles: U.S. Department of Energy Awards L.A. \$8 Million to Help Strengthen Grid Infrastructure

[Article originally appeared in <https://mayor.lacity.gov>]

Los Angeles Mayor Bass announced today that the Los Angeles Department of Water and Power (LADWP), the nation's largest municipal water and electric utility, was awarded \$8 million in grant funding from the U.S. Department of Energy's Grid Deployment Office (GDO) to help strengthen grid infrastructure as a part of the Maintaining and Enhancing Hydroelectricity Incentive program. This will include \$3 million for the Power Plant 2 (PP2) Tailings Stability and Slope Restoration

project and \$5 million for the Elderberry Dam Tailrace Sediment Removal project at the Castaic Power Plant (CPP). Made possible by the Bipartisan Infrastructure Law, the grant will strengthen LADWP's hydroelectric infrastructure, improve grid resilience and promote equitable access to clean energy for all Angelenos.

"Right now we are working to strengthen our grid and we must continue to advance this important work," said Mayor Karen Bass. "Locking arms is not a slogan, it's a way to get things done. I want to thank the Biden-Harris Admin-

istration for their continued support in helping us not only improve our infrastructure but also build a greener Los Angeles."

"These projects underscore our continued commitment to innovative solutions that benefit the environment, but most importantly the communities we serve," said Janisse Quinoñes, CEO and Chief Engineer of LADWP. "With the financial support from our federal partners, we are more empowered than ever to fulfill our mission of delivering clean, reliable energy to all our customers and creating a more resilient energy

landscape for generations to come."

Earlier this month, the U.S. Department of Energy's Grid Deployment Office announced the selection of 247 hydroelectric projects to receive over \$430 million. The goal is to fast-track the implementation of innovative projects that will play a crucial role in strengthening hydroelectric infrastructure across the nation and ensure communities have access to affordable, reliable clean power when they need it.

Fill in and submit the Section 3 Resident Registration form at no cost.

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR QUALIFICATIONS AND PROPOSALS (RFQ/P)

Architect Services for Oakland High School Field Replacement Project

October 11, 2024 (Issued)

Responses must be received October 24, 2024,
no later than 2:00 p.m.

The Oakland Unified School District ("District") is requesting proposals from experienced firms, partnerships, corporations, associations, persons or professional organizations ("Consultants") to provide architect services at Oakland High School Field Replacement Project ("Project") associated with the sports field replacement including but not limited to ancillary features and accessibility requirements.

Interested firms are invited to submit a Statement of Qualifications ("SOQ") and a detailed Fee Proposal (collectively "RFQ/P Packet") as described herein in PDF format with a cover letter addressed to:

Oakland Unified School District
Kenya Chatman, Executive Director of Facilities
Department of Facilities Planning and Management
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets and to negotiate contract terms with one or more Respondents.

The District will only accept electronic Proposals sent via email in lieu of hard copies. Proposals received by the District no later than 2:00 p.m. (Pacific Time)

on October 24, 2024 via email will be accepted (to **Juanita Hunter** at juanita.hunter@ousd.org and the contact persons below).

If you have any questions regarding this RFQ/P and/or submitting proposal electronically, please email Kenya Chatman at kenya.chatman@ousd.org and cc: to Colland Jang at colland.jang@ousd.org

LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM

The Local Business Utilization Policy requires that there is a mandatory fifty percent (50%) LBU participation with a 25% or less Local Business (LBE) participation and a 25% or more Small Local or Small Local Resident Business (SLBE/SLRBE) participation for all capital program/construction-related contracts and professional services agreements.

On April 28, 2021, the Board of Education amended the Local Business Policy which had named the City of Oakland as the singular agency to certify local businesses to include five additional local business certifications. For businesses located in Oakland, Local Business and Small Local Business certifications may also be accepted from the Port of Oakland, Alameda County Transportation Commission, Alameda County Department of General Services, US Department of Transportation California Unified Certification Program, and the California Public Utilities Commission. The District will follow the City of Oakland Small Business size standards in recognizing Small Local and Small Local Resident Businesses.

The full version of OUSD's latest Local, Small Local and Small Local Resident Business Enterprise Program can be found at the following link:

<https://www.ousd.org/facilities-planning-management/opportunities/lbu-policy>

Four Steps to Reduce Workers' Compensation Costs

[Article originally appeared in
www.constructionexec.com]

By Jean Feldman, RN, BSN

Construction work is among the most hazardous occupations, with thousands of workers suffering injuries every year.

Approximately 13% of injured workers are off the job for more than 90 days. These long-term absences not only disrupt projects but also drive up workers' compensation claims disproportionately, burdening businesses with significant financial costs. Compounding the issue, less than 3% of WC claims are flagged for behavioral health conditions, chronic pain and chronic pain with medication use. Yet these cases account for 35% of all WC costs.

The impact of an injury extends beyond physical harm; individuals who experience an injury while working are twice as likely to suffer from serious psychological distress, including anxiety, depression and fear of reinjury or job loss, compared to their uninjured peers. According to historical data from Sentry Insurance, workers struggling with these psychological challenges can take twice as long to return to work and their claims are five times more likely to exceed \$250,000 in WC expenses.

But it doesn't have to be this way. Both businesses and their injured employees can get back on track faster, reducing costs for employers and enhancing personal satisfaction for workers. The key lies in identifying and addressing the factors that keep injured workers off the job for extended periods.

An insurer's data can match the right care at the right time for injured workers that helps them return to work quickly and safely, while controlling costs.

HOW EMPLOYERS CAN IMPROVE RECOVERY AND RETURN-TO-WORK OUTCOMES

When WC claims involve behavioral health issues, they can quickly escalate, often surpassing the costs associated with early, comprehensive intervention that addresses both physical and psychological needs.

Complex claims with behavioral health elements are also nearly twice as likely to result in litigation. Injuries complicated by psychological distress are

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises ("DBE"), Small Local Business Enterprise ("SLBE"), Small Emerging Local Business Enterprise ("SELBE") and Disabled Veterans Business Enterprise ("DVBE") firms shall be afforded full opportunity to submit qualifications in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation, or religion in any consideration leading to the award of contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any consideration leading to the award.

SCHEDULE OF ACTIVITIES

PUBLIC LEGAL NOTICE ADVERTISEMENTS

OAKLAND UNIFIED SCHOOL DISTRICT DEPARTMENT OF FACILITIES PLANNING AND MANAGEMENT

REQUEST FOR STATEMENT OF QUALIFICATIONS AND PROPOSALS (RFQ/P)

Site Survey Services for Site Improvement Projects at Various School Sites

October 11, 2024 (Issued)

Responses must be received

October 24, 2024, no later than 2:00 p.m.

The Oakland Unified School District (“District”) is requesting proposals from experienced firms, partnerships, corporations, associations, persons or professional organizations (“Consultants”) to provide site survey services to include field topographic survey and underground utility locations associated with the site improvements at eight (8) District school sites that include nature exploration areas, play structures, and sport courts.

The District intends to contract with one company to provide services for all eight sites but retains the option to divide the scope and award more than one contract.

Interested firms are invited to submit a Statement of Qualifications (“SOQ”) along with a Fee Proposal (collectively “RFQ/P Packet”) as described herein, in PDF format addressed to:

Oakland Unified School District
Kenya Chatman, Executive Facilities Director
Department of Facilities Planning and Management
955 High Street, Oakland, CA 94601

Oral, telegraphic, facsimile, or telephone RFQ/P Packets will not be accepted. RFQ/P Packets received after this date and time will not be accepted. The District reserves the right to waive any informalities or irregularities in the RFQ/P Packets. The District also reserves the right to reject any and all RFQ/P Packets and to negotiate contract terms with one or more Respondents.

The District will only accept electronic Proposals sent via email in lieu of hard copies. Proposals received by the District no later than 2:00 p.m. (Pacific Time) on October 24, 2024 via email will be accepted (to Juanita Hunter at juanita.hunter@ousd.org and the contact persons below).

If you have any questions regarding this RFQ/P please email Kenya Chatman at kenya.chatman@ousd.org, and cc: to Megan Allegritti at megan.allegritti@ousd.org and

Colland Jang at colland.jang@ousd.org.

LOCAL, SMALL LOCAL AND SMALL LOCAL RESIDENT BUSINESS ENTERPRISE PROGRAM

District Modification: Based on the availability analysis conducted for the Site Survey Services, the District had waived its mandatory Local Business Utilization Policy requirement for LBE/SLBE/SLRBE certifications.

FULL OPPORTUNITY

The District hereby affirmatively ensures that Disadvantaged Business Enterprises (“DBE”), Small Local Business Enterprise (“SLBE”), Small Emerging Local Business Enterprise (“SELBE”) and Disabled Veterans Business Enterprise (“DVBE”) firms shall be afforded full opportunity to submit qualifications in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation, or religion in any consideration leading to the award of contract. No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any consideration leading to the award.

SCHEDULE OF ACTIVITIES

Listed below is the “Schedule of Activities” which outlines pertinent dates of which firms responding to this solicitation should make themselves aware.

DATE / ACTIVITY

Four Steps to Reduce Workers’ Compensation Costs

Continued from page 10

Here are four best practices employers can adopt to improve the odds of a successful, faster recovery:

1. Maintain Communication With Injured Workers

Ongoing, personal communication is key to maintaining the emotional and psychological wellbeing of injured workers. Regular check-ins, supportive messages or visits from supervisors help injured employees feel connected and valued during their recovery. This personal touch helps alleviate anxiety, clarifies the often complex workers’ compensation process and provides reassurance that the company cares about the worker’s wellbeing. These human connections are essential for creating

a sense of security and belonging, and help facilitate a smoother and more positive transition back to work.

2. Recognize the Employer’s Impact on Recovery

Employers can have a strategic impact on the recovery process by actively shaping the path back to work for injured employees. Implementing structured return-to-work programs that offer modified duties or light work can help employees re-engage, even if just for a few hours a day. This approach not only reduces financial stress but also reinforces a sense of purpose, making workers less likely to seek legal repercussions. By setting clear expectations and providing a defined roadmap for

recovery, employers demonstrate their commitment to employee wellbeing and create a supportive environment that motivates injured workers to return as soon as they are able. Some insurers administer modified duty programs for employers that are unable to.

3. Collaborate With Insurer to Use Data Effectively

Employers should leverage the wealth of data available from insurers and benefits providers to identify and address psychosocial issues that impact worker recovery. Asking the right questions of a carrier—for example, what are they doing to support workers facing psychological barriers, such as fear of reinjury—can lead to meaningful im-

provements. A carrier can partner with employers to actively analyze claims data and use advanced analytics to identify risk and develop targeted treatment options for injured workers who may benefit from early interventions. The goal is to turn data insights into actionable strategies that improve and hasten recoveries.

4. Tailor Treatment Plans

Employers should require their insurance providers to go beyond traditional approaches like telephonic-nurse case management, which, while helpful, may not be sufficient for workers facing prolonged recovery.

CALIFORNIA SUB-BID REQUEST ADS

FLATIRON

Project: Contract No. 12-0K91U4 – Route 91 Lakeview Avenue
Owner: Department of Transportation (CALTRANS)
Revised Bid Due Date: October 16, 2024, at 2:00 PM
Federal-Aid Project: ACNH-P091(156)E, CPFCDL-6212(031)

Request for quotes from Certified DBE Subcontractors and Suppliers for the following, but not limited to scopes of work: Aggregate Supply, Asphalt Dike, Asphalt Paving, Bridge Demo, CIDH Pile, Clear and Grub, Cold Plane AC, Concrete Barrier, Concrete Supply, Construction Area Signs, Demolition, Driven Pile, Electrical, Erosion Control, Fencing, Formliner Supply, Furnish and Erect Precast Girders, Grind Existing Pavement, Guardrail, Hydroseeding, Joint Seal, Joint Seal Assembly Supply, Landscape and Irrigation, Masonry (Sound Wall), Minor Concrete, Misc. Iron and Steel Supply, MSE Panel Supply, Noise Monitoring, Overhead Signs, Pipe Supply, Prestressing, QC Testing, Ready Mix Concrete Supply, Reinforcing Steel, Roadside Signs, Saw and Seal PCC, Street Sweeping, Striping, SWPPP, and Traffic Control Materials.

PLEASE SUBMIT QUOTES BY EMAIL TO SOCALBIDS@FLATIRONCORP.COM OR FAX TO (858) 271-1330

Plans and specifications are available, at no cost, from Caltrans <https://ppmoe.dot.ca.gov/des/oe/weekly-ads/oe-project.php?q=12-0K91U4> (Registration Required). Additionally, plans and specifications are available to view at Flatiron's San Diego, CA and Chino, CA offices. Please call to make an appointment to view the documents.

This project has a 22% DBE Goal. In addition to request for participation from DBE subcontractors and suppliers, Flatiron requests non-DBE subcontractors to provide lower-tier DBE participation. Bidders are required to indicate lower-tier DBE participation information to be evaluated as part of their quote.

Quotes must be valid for same duration as specified by Owner for contract award. Quotes will be broken down into comparable packages as reasonably necessary to facilitate participation. Flatiron intends to work cooperatively with all firms for scopes of work you are licensed and qualified to perform. Assistance in obtaining bonding, lines of credit, insurance, equipment, supplies, and materials is available upon request. Additionally, please contact us if you require technical assistance.

Subcontractors are required to possess and maintain a current contractor's license and must also be registered with the Department of Industrial Relations (DIR) as required by Public Contract Code Section 1725.5. Subcontractors will be required to execute Flatiron's Standard Subcontract Terms and Conditions and insurance requirements. A copy of the document in electronic format is available upon request.

Bond Requirements: Notwithstanding any contrary language in a bid to Flatiron or any prior course of dealing between Flatiron and a bidder, and unless waived in writing by Flatiron, Flatiron reserves the right to require each bidder to provide payment and performance bonds assuring bidder's obligations to Flatiron in the amount of 100 percent of the bid to Flatiron. Flatiron will reimburse the bond premium at actual cost not to exceed 3%. The surety on the bonds must be a California admitted surety.

Granite is an Equal Opportunity Employer and will work with any interested subcontractor to identify opportunities to break items into any economically feasible packages. We welcome quotes from qualified Minority Business Enterprise (MBE), Women Business Enterprises (WBE), Small Business Enterprises (SBE), Disadvantaged Business Enterprises (DBE) and other entities defined as socially and/or economically disadvantaged.

Assistance in obtaining bonding, insurance, equipment, materials and/or supplies is available upon request. Additionally, please contact us if you require any technical assistance. Quotations must be valid for same duration as specified by Owner for contract award. Granite intends to work cooperatively with all qualified firms seeking work on this project.

This project has a 23% DBE goal. In addition to request for participation from Certified DBE subcontractors and suppliers, Granite requests Non-DBE subcontractors to provide lower-tier DBE subcontractor and/or supplier participation. Bidders are encouraged to indicate lower-tier DBE participation, as it will be evaluated as part of their quote.

Please include your Contractor License Number and DIR Registration Number on your quote

Granite Construction Company is signatory to Operating Engineers, Laborers, Cement Masons Teamsters and Carpenters unions. Granite may require 100% performance and payment bonds for the full amount of subcontract price. Granite Construction will assist with bonding costs for subcontractors. Additionally, The US Small Business Administration may also assist you in obtaining bonding, for more information please visit them at <http://www.sba.gov/content/contractors#>. Subcontractors must possess a current contractor's license, DIR number, insurance, and worker's compensation coverage meeting Granite's requirements. All quotes are subject to the terms of Granite Construction Company's applicable standard form agreement which is available through the following link: <https://www.graniteconstruction.com/ca-resources/standard-agreements>

EVENTS

SUCCESS STORIES

Olio Toys

Jenny Kan and Valariu Balaban

[Article originally appeared in <https://smallbizla.org>]

Jenny Kan and Valariu Balaban have sold baskets of dog toys on Etsy, but they haven't gotten much traction. Meanwhile, they were frustrated with existing toys, which their dog ignored, so they invented their own food dispensing toy, which they call The Embarker.

Their toy is "sphericon" shaped: It both rolls like a sphere and rocks back and forth like a cone. Together these motions cause it to weave around as it rolls on the ground in a pattern that is more challenging for a dog to follow than a regular ball. It fulfills a dog's natural hunting and foraging instincts. The toy has another unique feature

among food dispensing balls. Its unique design makes it easier for the human to fill with food, but the food doesn't fall out immediately.

Challenge

Kan and Balaban participated in the Dream Fund startup training program for new entrepreneurs. To receive the Dream Fund grant, they needed to submit a business plan.

They also wanted to level up their web and social media game because they plan to sell completely through online channels.

The Truthful Kernel

Jon Jew

[Article originally appeared in <https://cacapital.org>]

Jon Jew is an entrepreneur with a mission: bring about a snack food revolution. Nine years ago, he put that mission into action and founded The Truthful Kernel, an artisanal popcorn company that uses organic, premium ingredients to create small-batch popcorn that is delicious and elevates the well-being of all who enjoy it. With guidance from WBC counselor Charles Thomas, The Truthful Kernel has overcome obstacles and is set to expand their sales into the Sacramento International Airport.

Working with California Capital, Jon overcame the pain points he experienced early in his entrepreneurial journey, including accounting and adhering to regulations. He developed marketing strategies, stayed up to date on business development opportunities, and navigated the challenges of Covid-19.

This year, The Truthful Kernel will see its popcorn placed on the shelves of large grocery stores across the state, and received a sizable purchase order from airport retailer Marshall Retail Group (MRG), who Jon connected with after a California Capital networking event with airport concessionaires. To start, The Truthful Kernel will be sold at MRG locations at Sacramento International Airport (SMF), San Francisco International Airport (SFO), and Los Angeles International Airport (LAX).

Lunatics Psycles

Luis Luna

[Article originally appeared in <https://smallbizla.org>]

Luis Luna has a passion for customized Harley Davidson motorcycles. In 2001, the U.S. Marine Corps veteran turned his love for bikes into a successful entrepreneurial venture, building, repairing, and selling motorcycles as Lunatic Psycles in Pasadena, CA.

After the COVID pandemic however, Lunatic Psycles was on the brink of closure. Luna had heard about an acquaintance's success working with the PCR Small Business Development Center, so he decided to reach out.

Solutions

Luna was paired with PCR SBDC Advisor Jorge Chavarin, who quickly helped assess the three major problems Lunatic Psycles was facing. In addition to the business challenges of the pandemic, Luna needed assistance navigating the loan process. The third issue was probably the most complicated: The building his business was renting was being sold and Luna had a limited amount of time to find a new location.

Chavarin helped Luna sort through his various options for raising capital, including loans and

available grants. Luna was certain he didn't want to incur more debt, so Chavarin walked him through the application processes for the various forgivable PPP loans and grants available. As a result, Luna received a capital infusion of \$9,835.

Results

Chavarin also helped Luna strengthen his business. After working through detailed cash flow projections, in-depth SWOT analyses, developing client surveys and implementing feedback, Luna saw a 15% increase in sales revenue.

"My advisor was genuine and truly cared about my business," Luna said. "Without his assistance, my business would have closed and I would not have the means to support my family."

With support from the PCR SBDC and SBDC advisor Jorge Chavarin, Luis Luna was able to keep Lunatic Psycles open and thriving.

"I am beyond grateful," Luna said. "This is one of the best resources I didn't know existed."
