

California's economy of ups, downs and uncertainty: 2024 year in review

[Article originally appeared in
www.calmatters.org]

By Levi Sumagaysay, CalMatters

California, which saw economic ups and downs in 2024, heads into a year of uncertainty that will be shaped in part by the actions of the incoming presidential administration.

The state started this year with a multibillion-dollar budget deficit that has been mostly erased with help from its increasing reliance on the fortunes of Silicon Valley. With companies like Nvidia enjoying outsized revenue, profit and stock market gains, the taxes tech companies and employees paid into California coffers helped bring the deficit down. The Legislative Analyst's Office recently said the budget is "roughly balanced," estimating a \$2 billion deficit next year.

That will be of some help as Gov. Gavin Newsom tries to shore up funding for anticipated legal action against the administration of Donald Trump and balance that with all the state's other needs. Among the promises of the president-elect that could have negative consequences on California include mass deportations and tariffs, both of which could drastically affect some of the state's biggest industries, their workforces and the communities that rely on them.

The state, which counts on income taxes for a big portion of its revenue, had an unemployment rate of 5.4% as of November. That was the nation's second-highest jobless rate, attributable to the loss of many private-sector jobs as companies pulled back from their frantic hiring during the beginning of the pandemic. California is trying a regional approach to creating jobs, but the outcome of those efforts will depend on other

factors, such as how businesses deal with the possible effects of tariffs, for example. If businesses' costs go up because imports become more expensive or their exports decline because of retaliatory tariffs, job creation could go down.

The cost of living and doing business in California continued to rise, prompting both people and companies to move away — though some companies' headquarters moves were largely symbolic because many of their employees remained in the state. Democratic legislative leaders, acknowledging that affordability issues drove more residents to look for change and vote for Republicans, said recently they plan to focus on policies to tackle the state's high cost of living, including building more housing.

Meanwhile, amid a continued slowdown in U.S. venture capital deals and initial public offerings, the number of companies in the state that went public rose to 39 from 25 last year, according to Pitchbook. When companies go public, they create wealth that can translate into tax revenue.

2025 outlook

Californians are dealing with higher property insurance costs because many insurance companies stopped writing new policies in the state, citing wildfire risks and higher costs. Insurance Commissioner Ricardo Lara's plan to address the insurance crisis will take effect early next year, and whether it works could affect not just individual property owners but also renters, small businesses and possibly the housing supply.

The state owes the federal government \$20 billion for unemployment insurance that mostly

How Contractors Can Ensure Compliance With Security Measures for Concert Venues

By Grace Calengor

The highest-profile performers need extra security to do their jobs—and so do the buildings in which they perform. Those extra security measures are often taken before the venue is even built and carried out long after the artist has left the building. When security and construction are intertwined, it makes for optimal architecture and artistry, but when security is an afterthought to the design and build process, it is only a recipe for litigation. Courtney Dunn, an associate with Segal McCambridge Singer and Mahoney, speaks with Construction Executive on the intersection of security and construction for concert venues and how contractors and/or civilians can avoid disputes.

How does your scope of work in the legal industry intersect with the construction industry?

Security and construction can go hand in hand. The beneficial approach is to have one harmonious effort that incorporates both design and security rather than design first and security later.

The contractor needs to be aware of security concerns when designing and the design manager wants to have a security expert review any plan.

When this comes into play, it can come in a couple different ways: identifying the liability, like concerns of slip-and-fall and using the proper concrete to avoid injuries that are structural; and identifying the risks presented on the premises and design in order to mitigate those risks.

Are security and safety provisions something that contractors typically have top of mind when they go into design a building?

There's never going to be a venue or any space that can guarantee no risk of injury or no potential threat. To have potential incidents in mind from the get-go is important. At this point [contractors] know what [risk] to expect if the venue is for concerts. If a claimant or a plaintiff brings a claim of a premises liability—like they fell down the steps, they tripped because the treads weren't the proper measurement pursuant to

mandatory code—that is where premises liability lies, and the contractor may be implicated. It's all about being aware of what those foreseeable risks are and making sure the design is in compliance with whatever the governing code is in that jurisdiction.

It's important to note that a continuous safety effort is necessary. You can identify those potential risks at the outset—that could include designing a fence to make sure that patrons don't try to dig it up and sneak in—but it's also a continuing effort in knowing the venue audience, knowing any potential performer and reassessing those risks. If a venue is hosting a performer that is known to have a particularly rowdy fan base, a venue will want extra security, recognizing the potential risks that don't usually occur and acting to address them. That goes hand in hand with contractors and the design aspects because they'll want to know where those access points are. They'll want to use territorial reinforcement like fences to establish boundaries and let pa-

trons know where certain activity is not permitted.

When does a legal firm get involved in the construction process? Is there awareness from the permitting process or only when litigation is necessary?

We're brought into it after the fact, once the litigation is in play or when a claim has been brought to an insurance company. [Segal McCambridge] has done some consulting work in the past and we've worked with experts who have worked with contractors in designing venues. But for the most part, we come in when there's litigation on the table—like in slip-and-fall claims or with a premises liability suit. For legal purposes, it's all about looking back at the purpose for different design aspects: were they in compliance with jurisdictional codes and was there any foreseeable risk involved when this venue was designed?

Project: San Joaquin Pipeline Valve & Safe Entry Improvements:
Phase 2B & 2C – Contract No. HH-1016

Owner: San Francisco Public Utilities Commission

Bid Date: January 9th, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified MBE/WBE/LBE Subcontractors and Suppliers but not limited to:

Aggregates, Asphalt, Concrete, Slurry, Pipe Suppliers, Precast Materials, Cathodic Protection, Concrete Flatwork, Concrete Structures, Electrical-Building, Fencing, Reinforcing Steel, Striping, Structure Steel, Welded Steel Pipe, Crane Rental, Painting/Coatings, Grate, Valves/Water Main/Temp Facilities.

Project Description:

The objective of the project to improve existing San Joaquin Pipeline (SJPL) System for safe personnel entry into segments of pipelines without a system shutdown. Phases 2B & 2C focus on improvements at the crossover vaults (Pelican, Roselle, and Emery) and SJPL#4 tie-in. Phase 2B includes: a) Uprate by installing three (3) City-Furnished 72" butterfly valves; b) two (2) City-Furnished 54" Butterfly Valves (KGVs) and two (2) City-Furnished 36" Knife Gate Valves; c) Furnish and install fourteen (14) Removable Spool Pieces (RSPs) and reinforced concrete vaults, d) Furnish and install six (6) 8" KGVs, eight (8) 12" KGVs, and three (3) 24" KGVs that are manually operated, and e) Associated structural, corrosion control, electrical, and I&C work. Phase 2C includes: a) Uprate three (3) 60" Butterfly valves, b) Install six (6) RSPs and reinforced concrete vaults, c) Install six (6) manually operated 8" bypass KGV, and d) Associated structural, corrosion control, electrical, and I&C work. The work is to be performed in Stanislaus County, California.

Engineers Estimate: \$57 Million

Project: Local Advanced Water Purification System (Local AWPS)
ITB Number: 193197 CIP: WQ-19003
Owner: City of Palo Alto
Bid Date: January 31st, 2025 @ 3:00 p.m.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to: Pipe Suppliers, Precast Materials, Steel Tanks, Bypass Pumping, CIDH Piles, Demolition, Electrical-Building, Fencing, Hydroseeding, Landscaping, Reinforcing Steel, Painting/Coatings, Concrete Repair, Concrete, FRP Grating, Crack Repair, Pre-engineered buildings, Misc. Metals, Valves/Water Main/ Temp Facilities, Steel Pipe, Strainers, Insulation, Generators/Switch Gear, Drainage Pumping Equipment, Pumping Plant Electrical Equipment.

Project Description:
Description of Project: The Local AWPS project consist in two Phases. This IFB is for Phase that will produce 1.125 MGD of RO permeate and will include housekeeping pads for future skids and pipe headers sized enough to accommodate expansion. Phase I Motor Control Centers will also accommodate for Phase II electrical loads. The permeate produced from the project will be blended with the existing tertiary-treated recycled water to achieve an instantaneous TDS concentration of 400 to 500 mg/L. The Local AWPS will be constructed without interruption to the current treatment operations, except as allowed under special circumstances, such as piping and utility tie-ins. The electrical service, potable water service and fire water supply will be independent from the RWQCP service. New service connections will be made with City of Palo Alto Utilities (CPAU).

Engineers Estimate: \$53.5 Million

McCarthy Building Companies
515 S. Flower St | Ste. 3600 | Los Angeles, CA 90071 | 213-655-1100 | License #411173

LACCD ELAC KWAC
Monterey Park, CA

McCarthy Building Companies, Inc. is soliciting interest from qualified subcontractors and suppliers to participate in the bidding for award phase of the project. The Scope of Work includes:

a. **LACCD East Los Angeles College, Kinesiology Wellness Athletic Center (ELAC KWAC)**
McCarthy and HED have been awarded the LACCD Kinesiology Wellness Athletic Center (KWAC). The KWAC building is a new 96,000 SF consisting of a new competition gymnasium, weight room, lockers rooms, juice bar, studio and fitness rooms, conference rooms, classrooms, offices, workstation areas, huddle rooms, Physical Therapy lab spaces, support spaces, and Rooftop PV. The existing Bungalows portables and parking lot areas will need to be demolished prior to the start of KWAC construction. The existing Child Development Center is an active building which needs to be maintained throughout construction while the existing Men's Gym needs to remain active until the KWAC Building is completed. The new KWAC Building will connect to the existing campus hydronic loop at the CUP, the campus Medium Voltage Loop and the campus communication fiber loop. The new Site work includes a new Multipurpose Field, public gathering/seating areas, landscape areas, and a new fire access road.

Bidders will be awarded a Stipulated Sum (Lump Sum) Design Build/Assist Contract. The contract will require Part A & Part B services (Part A = Design & Preconstruction Costs; Part B = Construction Costs). Each Bid Trade Package will have the specific Part A design and preconstruction responsibilities outlined in a McCarthy Scope Sheet.

Note: LACCD requires contractors to be able to satisfy their Project Labor Agreement (PLA). Technology contractors must be pre-approved with LACCD.

Project Location: 1301 Avenida Cesar Chavez, Monterey Park, CA 91754

Work categories to be awarded include: Structural Steel, and High Density Shelving.

Key Subcontractor Qualifications: Design-build experience; bondable and prequalified with McCarthy Building Co.

Key Dates (subject to change): Request for Proposals (RFP) issued to Subcontractors – 12/20/24 via Building Connected; RFI's Due 1/08/25; Proposals Due to McCarthy – 1/17/25.

- * - This project will require subcontractors to sign the Project Labor Agreement (PLA)
- * - This project contains an Owner Controlled Insurance Program (OCIP)
- * - A 100% Performance and Payment Bond from an admitted surety will be required upon award of contract for all trades.
- * - McCarthy is an equal opportunity employer and encourages qualified Small Business and Minority Business participation.
- * - LACCD requires an EMR of 1.24 or lower.

Please contact us if you have any questions regarding project specifics:

Project: Brackney Landslide Area Pipeline Risk Reduction Project
CWO # 2020-003
Owner: City of Santa Cruz
Bid Date: February 7th, 2025 @ 2:00 p.m.

We are requesting quotes from all qualified DBE Subcontractors and Suppliers but not limited to: Aggregates, Asphalt, Concrete Material, Slurry, Low Density Cellular Grout, Pipe Suppliers, Analytical Testing, Directional Drilling, Geotech Engineers, Striping, Surveying, Vibration Monitoring, Trucking, Hazmat, Valves/Water Main/ Temp Facilities.

Project Description:
The Work of this Contract includes the construction of the Newell Creek Pipeline in the Brackney Landslide area in Felton, CA between Glen Arbor Road and Brackney Road. The Brackney Landslides Area Pipeline Risk Reduction project will relocated approximately 2,250 feet of the Newell Creek Pipeline to increase the resiliency and reliability of water supply from the Loch Lomond reservoir. The project area is at particular risk of geotechnical hazards with approximately 2,700 linear feet new 24-inch inside diameter (ID) carrier pipeline, including an approximately 1,685 foot long portion to be installed by horizontal directional drilling (HDD). HDD through deep bedrock formation was determined to be the most cost-effective method to avoid landslide hazards. The project will require new easements for realignment. Due to limited access and construction staging, the project will require close coordination with neighbors and other utility owners, and the County of Santa Cruz.

Engineers Estimate: \$10 Million

INVITATION TO BID

Clark Construction, an equal opportunity employer, is seeking bids from all subcontractors, including Disadvantaged Business Enterprises (DBE), CMD Certified SF and SFPUC Micro and Small Local Business Enterprises (LBE), Minority Business Enterprises (MBE), Women Business Enterprises (WBE), and Other Business Enterprises (OBE).

Your bid is due to Clark on or before January 13th, 2025 @ 12:00PM PST.

Project Description:

SAN FRANCISCO RECREATION AND PARKS:

This project involves renovating an existing public park that is approximately 7 acres on the shore of India Basin along the southeast waterfront of San Francisco, California. The project involves the construction of two new buildings, a boathouse and a park restroom facility. The project also involves the construction of in-water components including marine way walls, a pile supported floating dock, and gangway. Other site improvements include, but are not limited to, paving, site walls, irrigation, grading, soils, planting, seating elements, site furnishings, stairs and rails, a new playground, utilities, site lighting, pergola structures, basketball courts, public art components, sidewalk frontage improvements, wayfinding signage, and interpretive signage elements.

The work is located at 900 Innes Avenue, San Francisco, California, 94124. The Engineer's Estimate for the project is \$58,000,000.

California's economy of ups, downs and uncertainty: 2024 year in review

Continued from page 1

stems from the pandemic, which has prompted the legislative analyst to recommend overhauling the way the unemployment insurance benefit system is funded. If lawmakers fail to address the issue, the system will continue to be underfunded and businesses will face increasing costs to pay down the debt. It would add to companies' growing complaints about the costs of do-

ing business in the state. Lastly, federal funding for schools, universities, health care, job training and more have big question marks around them as Trump begins a second term. Costs for programs that the U.S. government has traditionally helped pay for could shift to local and state governments and affect the state's economy as a whole.

A Bright Future For All Construction Mentor Protégé Program

The California Department of Transportation (Caltrans) has partnered with CPM Logistics to implement a Construction Mentor Protégé Program (CMPP) in each of the twelve Caltrans Districts. The mission of the CMPP is to assist the development of emerging construction companies so that they can compete successfully in Caltrans projects.

CONSTRUCTION
MENTOR PROTÉGÉ
PROGRAM

The CMPP supports CalSTA's and Caltrans core four priorities of safety, equity, climate action and economic prosperity, while furthering Caltrans goals. The CMPP is also consistent with the Governor's Executive Order No. S-11-06 to encourage new businesses, grow existing businesses, and promote small and emerging business contracting with the State of California.

Small & Emerging Construction Contractors

Caltrans welcomes and encourages the participation of small and emerging construction contractors in the Caltrans projects bidding process. We also recognize the challenges and barriers preventing the full participation of these companies in this process.

Prime Contractors

The construction community has expressed a desire to engage with small and emerging construction contractors more effectively. The CMPP provides a structured and collaborative setting for primes and small businesses to connect and learn from each other.

Ready to Apply?

Membership is free, so please complete an application today.

Key Benefits

Access resources and guidance on all aspects of the construction industry

Build relationships and connections within the construction community and Caltrans

Grow technical skills necessary to prosper in the public works arena

Improve Caltrans fluency to successfully compete in Caltrans projects.
