## A Bullet Train Into a Fiscal Swamp?

The more you look at the California high-speed rail project's finances, the shakier they seem.

By Charles Chieppo

Construction is underway on California's \$68 billion bullet train connecting Los Angeles and San Francisco. But the closer you look at the project, the shakier its finances appear.

The good news is that 36 companies from around the world responded to the California High-Speed Rail Authority's request for suggestions about how to complete the project, and many expressed a willingness to participate. The bad news is that several of the respondents expressed serious concerns about the bullet train's finances.

Perhaps the biggest concern was whether fare revenues would cover operating costs. The plan that state voters approved to fund the project bans the use of public subsidies for the operation of passenger service. State officials have long claimed that the line will turn a profit as soon as the first 300-mile segment between the San Fernando and Central valleys opens, but that hardly seems certain.

In its response to the authority's request, Spanish construction company Sacyr wrote that "it is our opinion that revenue from ridership may not be sufficient to cover all [operation and maintenance] cost." If Sacyr is right, does anybody doubt that maintenance is what would lose out? Skimping on maintenance saves money in the short run but dramatically increases costs over time and degrades service quality.

Subsidiaries of the Spanish company Ferrovial SA wrote that "it is highly unlikely that the [California system] will turn an operating profit within the first 10 years of operation and that "more likely, [the system] will require large government subsidies for years to come."

The Ferrovial subsidiaries also noted that most high-speed rail systems around the world require operating subsidies and suggest that the same will probably be true for California's. That is certainly at odds with High-Speed Rail Authority Chair Dan Richard's assertion that every major high-speed rail system in the world operates without subsidies. It's also at odds with the argument made by other high-speed rail boosters, that "every form of transportation requires government investment."

If any high-speed rail line is likely to require subsidies, it's California's. The Los Angeles Times looked at a number of major rail corridors. Fares range from 25 cents per mile on Italy's Milan-to-Salerno line to 50 cents per mile for Amtrak service between Boston and Washington, D.C. California's bullet train plans to charge 20 cents per mile.

There is also uncertainty around the project's capital funding. The state is committed to provide up to \$500 million per year until at least 2020 from money it expects to collect from companies to offset carbon emissions. But these greenhouse gas fees are untested as a funding source, and post-2020 public funding is uncertain. While a number of firms have expressed a willingness to participate

in the project, none have yet offered to put up their own money.

Since what feels like the beginning of time, governments have built transportation assets with revenue sources that are inadequate to fund ongoing operation and maintenance costs. California's bullet train takes this bad practice a step further because the state only has on hand about half of the \$31 billion needed to build the initial segment of the line.

Few public assets are more important to regional economies than transportation infrastructure. But moving forward on those projects without sufficient revenue sources usually results in a trip to a quagmire.

NOTE: This column has been updated to correct a typographical error that resulted in an incorrect figure being given for the overall cost of the California high-speed rail project.

## ADVERTISEMENT FOR SUBCONTRACTOR PRE-QUALIFICATION

### Hunt Construction Group, Inc.

**CSU Student Recreation and Aquatic Center - BP #4 - All Scopes per Divisions 4 through 14**

**Hunt Construction Project # 0340260**

**Documents Due 12:00 PM, Thursday, May 5, 2016**

DOCUMENT DUE: Sealed document will be received by Hunt Construction Group for the CSU Student Recreation and Aquatic Center - BP #4 at Hunt Construction San Francisco Office - 100 Pine Street, Suite 725, San Francisco, CA 94111, until 12:00 p.m. local time, on the due day indicated above.

Subject to conditions prescribed by California State University - San Jose, Project Specific Prequalification documents are sought from Subcontractors for the following work:

**Bid Package #4 - Remaining Scopes:** Excavation, Masonry, Elevators, Misc. Metals, Drywall, Roofing, Waterproofing, SM Flashing, Metal Wall Panels, Curtain Wall, Doors/Frames/Hardware, Casework, Tiling, Flooring, Paint, Toilet Rooms & Accessories, Specialties, Athletic Equipment, Pedestrian Control & Commercial Equipment, Landscape

**PROJECT DESCRIPTION:** Hunt Construction Group, Inc. is the Design Build Contractor for the new building of approximately 123,500 sf within San Jose State University. The project will provide instructional space, training facilities, basketball courts, pools, locker room and coach's offices. There will also be a pool mechanical equipment building. The project will strive to comply with LEED Gold equivalent. This project will achieve an undisclosed percentage of DVBE participation. Design will begin March of 2016 with construction beginning in November 2016 and completing July 2018. **This project is a public works project and is subject to Prevailing Wage Rate laws.**

**DELIVERY OF PRE-QUALIFICATION DOCUMENTS:** Prequalification Process must be completed on or before May 5, 2016 by 12:00 pm. All pre-qualification documents are to be **hand delivered to the address above** or via **Fed-Ex/UPS to: Hunt Construction Group Inc., at 100 Pine Street, Suite 725, San Francisco, CA 94111.** Emailed Prequalification Forms are accepted with the understanding that hard copies are to follow within 24 hours. Subcontractors are responsible for delivery of pre-qualification documents prior to the time of closing. Contractors shall use the pre-qualification form included in the pre-qualification documents. Pre-qualifications which do not respond fully to the requirements may be rejected as non-qualified. Specialty subcontractors and suppliers should not submit pre-qualification documents to Hunt Construction Group, Inc. for individual components of above listed Bid Packages.

**PROCUREMENT OF PRE-QUALIFICATION DOCUMENTS:** Each prospective subcontractor will be provided, one (1) Hunt Construction Group Pre-Qualification Document. Pre-qualification Documents will be available April 21, 2016. Subcontractor should request Pre-Qualification Documents for Bid Package #4 Remaining Scopes. Subcontractors may obtain documents by contacting Shawnda Bowman (Tel 415-391-3930) (Fax 415-391-3942) (email: [Shawnda.bowman@aecom.com](mailto:Shawnda.bowman@aecom.com)).
